

Striking Developments

On October 3, the Clark College community came together for an annual tradition, the Students vs. Staff softball game. One change to the tradition: After years of being held during spring quarter, this event was moved to fall quarter. (Expect another competition, possibly kickball, to take its place during spring quarter.) Another change: After many years as the underdogs, Team Staff (which also includes faculty) came away with the victory, trouncing Team Student 13-4. Team Staff owed some of their success to new softball coach Mandy Hill's able leadership, as well as Health and Physical Education instructor Alan Wiest's impressive tally of four home runs.
