

Safety Steps

Among the many events organized by the Emergency Management Planning Committee was this evacuation drill held on May 9, 2013.

The Emergency Management for Higher Education (EMHE) federal grant period concluded Sept. 30, 2013. Over the three-year performance period, the \$744,402 Department of Education grant successfully supported expansive steps to create a safer college environment for students, personnel and guests.

Grant-funded activities were overseen by members of the Emergency Management Planning Committee. Key accomplishments include staff development, support and training; equipment and supply selection and acquisition; and creation of detailed plans such as the Emergency Operations Plan and Continuity of Operations Plan. During the grant period, the college accomplished all seven grant objectives. In its summation, the

independent third-party evaluation team “found Clark College’s efforts to fulfill the intent and requirements of the EMHE grant to be exemplary. The college took its commitment to the Department of Education seriously and has found a way to overcome each obstacle that surfaced throughout the grant period. Not only did Clark College meet the goals and objectives of its integrated emergency program under the EMHE grant, in the opinion of the third-party evaluation team they exceeded them.”

A video entitled “Clark College: Development of a Community College Emergency Management Program (2010-2013)” was produced by emergency management staff. The project was developed as a “show-and-tell” piece for both contemporary and historical use and to share with other community and technical colleges. Key components of Clark College’s emergency program are featured in the 3:43 piece, which illustrates program building blocks, personnel contributions and the related college culture shift that has occurred. It is open-captioned for accessibility. EMHE grant-funding allowed staff to hire local government CVTV to film the video.

A new Emergency Response Guide was completed and distributed in October. The bright yellow, spiral-bound, 24-page guide serves as a detailed desk reference on college emergency procedures. The guide was revised and enhanced to reflect the content of the college’s Emergency Operations Plan. The cost was paid by the federal Emergency Management for Higher Education grant. Distribution was handled by Environmental Health and Safety staff and student employees, and includes all work sites throughout the college. An electronic version is also available on ClarkNet [login required], with a student version available on Clark’s website.
