

Change is coming

President Robert K. Knight received applause during the 2016 State of the College address when he told representatives from Ridgefield, “We’re coming!” – a reference to the college’s future North County campus.

Clark College President Robert K. Knight delivered the annual State of the College address in Gaiser Student Center on Jan. 21. In his speech he stated, “I hope to leave you with a sense of the transformation that is happening all around us.”

Some of that transformation is physical—Knight pointed to the upcoming opening of the new STEM building in the fall and the \$10 million remodeling of the college’s culinary facilities to support the re-opening of the Culinary Arts program. He also highlighted more long-range plans, including the construction of a new campus in Ridgefield. Many representatives from Ridgefield’s government were in the audience and cheered

approvingly at mention of the new campus.

Other transformations were more systemic. Knight spoke about the progress being made in implementing the college's 2015-2020 Strategic Plan, which was unveiled during last year's State of the College address. Steps taken to realize that plan include a new Social Equity Plan and Academic Master Plan.

Vice President of Instruction Dr. Tim Cook with President Knight at the 2016 State of the College address. Dr. Cook has been instrumental in developing the college's new Academic Master Plan.

Another systemic change is a move toward "guided pathways," a concept that offers students highly structured course plans that help them complete their programs efficiently. This strategy, popularized by the book *Redesigning America's Community Colleges: A Clearer Path to Student Success*, has become a rallying cry among many in higher education who are working to boost students' ability to complete their programs smoothly and quickly. "The vision of guided pathways is that every student has a clear road map to help them navigate each point in their journey at Clark," said Knight.

To further help students on their journeys, Knight added, Clark would be adding more one-on-one assistance with navigating college systems. "Going on a computer to enroll and register online is hard enough for anyone, but especially if you don't have anyone in your family who can help you with that," said Knight, noting that almost three-quarters of Clark's student body were first-generation college students. "So we're backing off from doing all of that online."

As is traditional, Knight used the State of the College address as an opportunity to showcase some of Clark's talented and dedicated employees by presenting them with Presidential Coins. He also highlighted three Clark students whose stories reflected the many ways students find success at the college.

In conclusion, Knight said that just as Clark College was changing, so was the region that it served. "I feel the energy in Clark County right now," he said. "I'm excited by what we can accomplish together."
