

Clark College among nation's best

Highlighting the critical importance of improving student success in America's community colleges, the Aspen Institute College Excellence Program today named Clark College as one of the nation's top 150 community colleges eligible to compete for the 2017 Aspen Prize for Community College Excellence and \$1 million dollars in prize funds, as well as Siemens Technical Scholars Program student scholarships.

The Prize, awarded every two years, is the nation's signature recognition of high achievement and performance among America's community colleges and recognizes institutions for exceptional student outcomes in four areas: student learning, certificate and degree completion, employment and earnings, and access and success for minority and low-income students.

"We are excited and honored to be selected as one of the top 150 community colleges in the country," said Robert K. Knight, president of Clark College. "Students and student success is at the heart of everything we do, and it is wonderful to have the hard work of our exceptional faculty and staff recognized in this way. Our new strategic plan and program initiatives are all aimed at increasing student success, and being selected as one of top community colleges is proof we are moving towards this goal."

Nearly half of America's college students attend community college, with more than 7 million students – youth and adult learners – working towards certificates and degrees in these institutions across the country.

"Community colleges have tremendous power to change lives, and their success will increasingly define our nation's economic strength and the potential for social mobility in our country," said Josh Wyner, executive director of the Aspen Institute College Excellence Program. "This competition is designed to spotlight the excellent work being done in the most effective community colleges, those that best help students obtain meaningful, high-quality education and training for competitive-wage jobs after college. We hope it will raise the bar and provide a roadmap to better student outcomes for community colleges nationwide."

A full list of the selected colleges and details on the selection process are available at www.aspenprize.org.

Clark College and 149 other community colleges were selected from a national pool of over 1,000 public two-year colleges using publicly available data on student outcomes in three areas:

- **Performance** (retention, graduation rates including transfers, and degrees and certificates per 100 full-time equivalent students)

- **Improvement** (awarded for steady improvement in each performance metric over time)
- **Equity** (evidence of strong completion outcomes for minority and low-income students)

Clark College has been invited to submit an application to the Aspen Prize for Community College Excellence containing detailed data on degree and certificate completion (including progress and transfer rates), labor market outcomes (employment and earnings), and student learning outcomes.

Ten finalists will be named in fall 2016. The Aspen Institute will then conduct site visits to each of the finalists and collect additional quantitative data. A distinguished Prize Jury will select a grand prize winner and a few finalists with distinction in early 2017.

The Aspen Prize is funded by the Joyce Foundation, the Siemens Foundation, and the Kresge Foundation.

Scholarship Opportunities

For the first time, the 150 Prize-eligible institutions are also invited to nominate exceptional students enrolled in their best middle-skill STEM programs for scholarships. Up to 50 Siemens Technical Scholars will be selected from programs that provide outstanding preparation for high-demand jobs in manufacturing, energy, health care, and information technology. A partnership between the Siemens Foundation and the Aspen Institute, the Siemens Technical Scholars Program intends to help our nation's community colleges and their business partners bridge the gap between projected shortages of skilled workers and the millions of high-demand jobs in these STEM industries. Scholarship winners and the programs that deliver rigorous training enabling their success will be announced in fall 2016. For more information and to view video profiles of 2015 Siemens Technical Scholars, go to: <http://as.pn/stscholars>.

About the Aspen College Excellence Program

The Aspen College Excellence Program aims to advance higher education practices, policies, and leadership that significantly improve student outcomes. Through the Aspen Prize for Community College Excellence, the New College Leadership Project, and other initiatives, the College Excellence Program works to improve colleges' understanding and capacity to teach and graduate students, especially the growing population of low-income and minority students on American campuses. For more information, visit www.aspeninstitute.org/college-excellence.

About the Aspen Institute

The Aspen Institute is an educational and policy studies organization based in Washington, DC. Its mission is to foster leadership based on enduring values and to provide a nonpartisan venue for dealing with critical issues. The Institute is based in Washington, DC; Aspen, Colorado; and on the Wye River on Maryland's Eastern Shore. It also has offices in New York City and an international network of partners. For more information, visit www.aspeninstitute.org.

About Clark College

Located in Vancouver's Central Park and serving up to 14,000 students per quarter, Clark College is Washington State's largest single-campus, for-credit community college. The college currently offers classes at three satellite locations: one on the Washington State University Vancouver campus; one in the Columbia Tech Center in East Vancouver; and one in the Columbia River Gorge in Bingen, Washington. Additionally, its Economic & Community Development program is housed in the Columbia Bank Building in downtown Vancouver.
