

All-Washington Academic Team

Clark College Vice President of Instruction Dr. Tim Cook with 2018 All-Washington Academic Team members Madysen Saucedo and Carlos Hunt.

On March 22, three outstanding students represented Clark College at the 23rd annual All-Washington Academic Team ceremony, honoring 78 students from Washington State for their academic excellence and community service.

The All-Washington Academic Team is a program of Phi Theta Kappa, the international honor society for two-year colleges. Top students from each of Washington state's 34 community and technical colleges were honored at the annual ceremony, which was held at South Puget Sound Community College in Olympia; each received a medal and a \$250 scholarship from KeyBank, and

will become eligible for additional transfer scholarships from in-state colleges and universities.

The three Clark College team members are:

Carlos Hunt

After many years of working in construction, Carlos Hunt realized that he wanted to find work that was less physically taxing and more intellectually stimulating. Since coming to Clark College, he has developed an interest in social justice and public administration. "I want to help people in an empowering way which inspires them to share whatever talent they have with others," he says.

Diane
Hurst

Diane Hurst

After many years of staying home with her children to home-school them, Diane Hurst came to Clark College to learn skills that would help her financially support herself and her family. She is now completing an Associate of Fine Arts degree in Graphic Design, which she says allows her to explore her creativity. Outside of school, she volunteers at her church and is working on marketing her own line of greeting cards.

Madysen Saucedo

Madysen Saucedo was 15 years old when she began taking classes at Clark College through Running Start. While it was an

adjustment to sit in classrooms with students older than her own parents, she says she has appreciated the academic challenge she experienced at Clark. She plans to transfer to Arizona State University, where she will continue studying mathematics to pursue her goal of becoming an actuary—and becoming the first person in her family to graduate from college.
