

# Exceptional Faculty Award spotlight: The naturalist

Biology professor Steven Clark in his office.

Steven Clark's office is full of animals. There's the "Cats Against the Bomb" calendar; the poster of the grizzly bear; the woodblock print of a turtle; the vintage Audubon Society birdwatching chart; photos of bees, rodents, spiders, his dogs. The effect is something like walking into a natural history museum that's been shoved into a filing cabinet.

"This room is reflective of my interests," says Clark, glancing over at an illustration of wildflowers above his desk. And, indeed, a conversation with Clark is likely to take you through the intricacies of parasitic wasps, the difficulties involved in attaching radio monitors to pond turtles, and a startlingly accurate imitation of a pika—a

small, rabbit-like creature whose populations in the Columbia Gorge Clark has been helping to monitor for years.

It's hard not to look around this room and assume that Clark was destined to be a biology professor. But Clark, who received his Master of Special Education for the Hearing Impaired from Lewis & Clark College in 1986, began his career teaching almost everything *but* biology at the Washington School for the Deaf.

"I was attracted to the idea of teaching an underserved population," he says. Eventually, however, Clark found himself drawn to the sciences, and in 2000 he left the School for the Deaf to pursue a master's degree in Environmental Sciences and Resources at Portland State University. For four years, he worked as a field biologist for the Washington Department of Fish and Wildlife while also teaching mathematics and biology at Clark as an adjunct instructor.

For Clark, teaching at a community college still fulfills that urge to help underserved populations. "There are great teachers at all colleges, I know that, but I think the mission of the community college—to teach the rank and file of our community—I like that," he says. "My mother never got to go to college. But I used to think that if my mom *had* gone to college, she would have gone to a community college."

Professor Clark at a STEM demonstration in 2015.

Clark, who received tenure in 2014, currently teaches the biology sequence for life sciences majors, a three-quarter series that has earned a reputation as a daunting academic challenge.

“It’s funny, because I think of myself as a warm person, but I know my class is often perceived as ... rigorous,” Clark says, smiling and pausing as he searches for the right word. “I think some students get nervous at first when I explain the work load. But the reason I talk about it from the very beginning is that I want them to understand what they’re getting into. I invite students from the past year to talk about what worked in getting them to be successful. I’ll tell students to show me their notes so I can see where they’re missing something. And you know, I think by the middle of winter quarter, their [study] habits have gotten better and they’re starting to have fun.”

Clark’s theory is backed up by the many students who nominated him for a 2014-2015 Exceptional Faculty Award. “Biology may very well be the study of life, but without an enthusiastic instructor it can seem completely lifeless,” reads one nomination. “Steven Clark has somehow managed to maintain a strict and efficient authority over his classroom, while also making it incredibly fun and intriguing. I can honestly say that I have never seen those two concepts, authority and fun, incorporated into a class so well together. ... He truly cares for his students, that is abundantly apparent.”

For Clark, his classes’ rigor is one of the ways he shows that he cares. “I like my students to know that they did all their hard stuff at community college, where the focus is on teaching and the tuition is lower and there’s more room to recover from mistakes,” he says. “The best thing for me is when former students email me and say, ‘I’m at Washington State University right now, and me and the other Clark students are in the top tier.’”

## Take a Bow, Maestro!

Professor Donald Appert conducts the Clark College Orchestra in 2015 at the end of his 25th year of teaching music at the college.

The award-winning Clark College Orchestra concluded its 2014-2015 season with its annual spring concert on June 14—an event that also served to celebrate Clark Orchestra Director and Conductor Donald Appert's 25th anniversary at the college. The concert was held at the Royal Durst Theatre in the

Vancouver School of Arts and Academics.

Dr. Appert receives a “memory box” full of messages from friends, colleagues, and former students at his 25th anniversary of teaching at Clark. The box was presented by Dean Miles Jackson.

Featured on the program was pianist Renato Fabbro performing the U.S. premiere of Maestro Appert’s *Piano Concerto in Mi*. In addition the orchestra performed “Buckaroo Holiday” from *Rodeo* by Aaron Copland and *Scheherazade* by Nikolay Rimsky-Korsakov.

Clark College Band Director  
Richard Inouye, Music  
Department Program  
Coordinator Shelly Williams,

Orchestra Director Donald Appert, and Vocal Music Program Director April Duvic gather to celebrate Prof. Appert's 25th anniversary of teaching at Clark.

Dr. Appert was honored by the musicians, music department faculty, and college administration for his quarter-century of work at Clark College. Social Science and Fine Arts Dean Miles Jackson paid tribute to Appert after the concert for building the orchestra into a "fantastic program that keeps getting better and better each season." He also applauded Appert's commitment to the students in the classroom and in private instruction.

Clarinetist John Gibson, who played at Prof. Appert's first Clark concert in 1990, returned to perform with him at his 25th anniversary concert on June 14, 2015.

Following the concert, Dr. Appert was further honored by long-time orchestra supporters and friends, as well as by the orchestra's musicians, in a reception. Among those congratulating him were Kirsten Hisatomi Norvell and John Gibson, two musicians who played in the Clark Orchestra at Dr. Appert's first Clark concert, which was held on December 5, 1990. Both Norvell and Gibson have played concerts with Dr. Appert throughout the years and performed in the June 14 concert.

Dr. Appert's programming, which has won national awards through the years, is one of the artistic strengths that has built his reputation at Clark. In addition to programming standard orchestral repertoire, Appert has introduced Clark musicians to rarely performed works by lesser-known composers; premiered new works by contemporary composers; and performed a number of his own compositions. Dr. Appert also has a long history of bringing local, national, and international soloists and guest conductors to enhance the artistic experience of Clark College musicians. The 2014-2015 season featured baritone soloist David Wakeham (Australia) and guest conductor Paolo Biancalana (Italy) in addition to Fabbro, who teaches at the University of Portland.

# On Her Way

Kathleen Fockler smiles after receiving the news that she has received the 2015-2016 Community College President's Scholarship.

About a month ago, Kathleen Fockler was on the way to a Beaverton testing facility to sit for the National Council Licensure Examination (NCLEX), the exam each nursing student must pass before officially becoming a Registered Nurse.

She was ready. It had taken her 20 years to reach this point, but she felt confident that the rigorous coursework of the Clark College Nursing Program had prepared her for the exam. Finally, after years of struggle, she was going to achieve her long-held dream of becoming a nurse.

And then her car broke down.

In the middle of the Route 26 tunnel.

During morning rush hour.

It could have been a disaster. But Kathleen Fockler, age 47, is not someone to submit to defeat. When the tow truck arrived, she persuaded the driver to take both her car and herself to the testing site. She had driven there the week before just to be sure of the route—"I didn't want to get lost," she explains—so she was able to direct him there swiftly.

"I got there just a couple minutes after the exam began, and when I explained my situation, they let me go ahead and take the test," Fockler recalls.

From the beginning, Fockler's road to becoming a nurse has been beset by unexpected detours and daunting challenges. And each time, Fockler has been able to overcome these roadblocks with a combination of preparation, persistence, and support from those around her. During the 2015 Commencement ceremony, her persistence was rewarded when Clark College President Robert K. Knight announced that she was the recipient of this year's Community College President's Award in honor of Val Ogden. This scholarship provides full tuition and fees for two years to a Clark graduate completing their bachelor's degree at Washington State University Vancouver.

"I still can't believe it," Fockler says. "This is an incredible opportunity. A door has just been opened right up for me."

Fockler began taking pre-nursing courses at Clark in 1994. However, her plans were derailed when her then-newborn son, Gabe, began experiencing seizures and developmental delays. "The timing was not right," Fockler says. She decided to leave school and concentrate on supporting her son and her daughter, MaKenzie, who was born three years after Gabe.

Fockler held onto her dream even while spending many years working as a paraprofessional assistant in the Evergreen

School District Early Childhood Center, helping support children with developmental delays. It was only when Gabe entered Clark through the Running Start program that Fockler felt the time was right for her to return to school as well.

At first, the experience of returning to school after 20 years was intimidating. Courses required online registration—Fockler didn't even own a computer. But she quickly found the support she needed at Clark.

"The resources that Clark has are tremendous," she says. "There's a math lab, there are computer labs, there's a retention specialist in the nursing department. There's just so much in place to help the student."

Fockler is quick to point out another resource that helped her on her journey: the college's scholarships office. "When I applied to nursing school, I thought, 'How am I going to do this?'" she recalls. "At the time, I was working two jobs, and I'd heard how demanding the nursing curriculum was."

But Clark's scholarship specialists quickly went into action, finding Fockler potential scholarship opportunities and encouraging her to apply. "[Outreach/Scholarship Coordinator] Lizette Drennan was like my cheerleader," she recalls. "There was a postcard of the scholarship staff that I found, and I stuck it in my binder to remind me about the people who were supporting me. I had a picture of my family, and Lizette's smiling face."

2015-2016 Community College Presidential Scholarship recipient Kathleen Fockler takes a moment to hug and thank her nursing professors at commencement.

Fockler also found support from the nursing faculty, who encouraged her to keep going. Fockler gained confidence after working in the program's state-of-the-art simulation lab, which helped her develop clinical skills before she even began her internship.

That internship proved to be another challenge. From the beginning, Fockler had set her sights on becoming a pediatric nurse working with medically fragile children, a goal formed through her experiences sitting in hospitals with Gabe early on. But Clark's nursing program had only one pediatric internship opening per cohort.

A faculty member suggested Fockler volunteer at the Center for Medically Fragile Children (CMFC) at Providence in Portland to gain experience. Clark didn't have an internship partnership set up with the CMFC; these agreements are labor-intensive and highly competitive. But Fockler so impressed the CMFC staff as a volunteer that they decided to create an internship partnership for her. Now, Clark has a regular internship opening at the center.

Throughout her studies, Fockler has shown a tireless work ethic. She went over notes while waiting in her children's doctor offices. She reviewed cranial nerves while sitting beside her mother's hospital bed after a surgery. And when Fockler herself had to undergo thyroid surgery, she didn't skip a class, deciding to simply attend the evening lecture rather than her standard morning one.

"Each day, I try to learn everything I can," she says.

On top of all that, Fockler found time to regularly volunteer with the Evergreen School District, the CFMC, SHARE House, and the Student Nurse Association of Clark College.

Despite her talent and perseverance, however, Fockler knew there was another huge hurdle standing between herself and her goal. In order to work in a specialized hospital setting like the CMFC, Fockler would need to earn a Bachelor of Science in Nursing degree. Fockler—who lives in Vancouver with her children; husband, Bunnell; and mother-in-law, Beth LaViolette—has begun working with an in-home nursing care service for medically fragile children. Even so, she couldn't see how she could afford university tuition for both herself and MaKenzie, who is entering the University of Washington in the fall. Receiving the Community College President's Scholarship means her way is now clear to continue her education.

Fockler is effusive in her thanks to all the organizations who have provided scholarships to her, including the Clark College Foundation, Vancouver Rotary, and 40 et 8.

"I guess it really does take a village to raise a nurse," says Fockler, who hopes one day to be able to fund her own nursing scholarship. "The community supported me tremendously, and working hard is my way of paying them back."

### **Additional Scholarships**

Through the support of the Clark College Foundation, two other finalists for the Community College President's Scholarship were awarded \$3,000 scholarships to continue their education. President Knight announced the scholarships to **Julie Mercado** and **Melanie Brawley** during the Commencement ceremony as well.

## Honoring Three Women ... and Three Decades

Three outstanding women working in different fields, but with a similar commitment to improving the lives of others in Southwest Washington, are the winners of the 2015 Iris Awards, honoring women of achievement in Southwest Washington.

The awards will be presented to Lisa Schauer, Senior Vice President for Business Development at Mackay Sposito; Lori Pulliam, Director of Transition at the Washington State School for the Blind; and Victoria Bradford, owner of Comfort Interiors and a member of the Evergreen Public Schools Board of Directors.

Schauer, Pulliam, and Bradford will be honored on March 5,

2015 in Clark College's Gaiser Student Center. Following a 5 p.m. reception, the awards ceremony will begin at 6 p.m.

Tickets are on sale through the Greater Vancouver Chamber of Commerce at [www.vancouverusa.com](http://www.vancouverusa.com). The cost is \$35 per person; a table sponsorship, which includes six tickets, can be purchased for \$250. Seating is limited.

Clark College is located at 1933 Fort Vancouver Way, Vancouver. Driving directions and parking maps are available at [www.clark.edu/maps](http://www.clark.edu/maps). Anyone needing accommodation due to a disability in order to fully participate in this event should contact Clark College's Disability Support Services Office at (360) 992-2314 or (VP), or visit Penguin Union Building room 013, by February 27.

The Iris Awards are a continuation of a tradition of honoring women in Southwest Washington that began in 1985 with a photography exhibit at Clark College. Over the years, the annual event has developed into an official awards ceremony, with a nomination process open to all members of the local community.

The Iris Awards are supported by Clark College, the Clark College Foundation, Greater Vancouver Chamber of Commerce and the *Vancouver Business Journal*, which publishes the "Women in Business" directory, the only Portland/Vancouver metro area directory of businesses that are owned, directed or managed by women. The Iris Award winners will be featured in the 2015 "Women in Business" directory.

## **The 2015 Iris Award Recipients**

**Lisa Schauer**

Lisa Schauer, *standing*, goes over spreadsheets at MacKay Sposito.

Lisa Schauer is a Senior Vice President for Business Development at MacKay Sposito. She was the first female partner in the regional engineering consulting firm. As a member of the firm's Board of Directors and Executive Committee, she is currently responsible for strategically positioning the firm's business development and marketing efforts. Schauer is well known throughout MacKay Sposito and in the industry for her commitment to people and mentoring, including launching the company's Veteran's Council, in 2013 to recognize and support veterans.

Schauer is equally well known through her involvement in the community. She is on the Chair of the Board of Directors for the Children's Center and was a Founding Board Director and is currently the Chair of H-RoC Political Action Committee, a non-partisan group formed to advance women leaders in Southwest Washington. She has served on many other boards and leadership positions.

**Lori Pulliam**

Lori Pullman working with a member of the LIFT program.

Lori Pulliam has been teaching at the Washington State School for the Blind for 32 years, and currently manages the residential department which provides residential services and education to our middle and high school students, and the LIFTT program, which teaches young adults with visual impairment skills of independent living. Throughout these 32 years she has taught students with deaf-blindness, worked with students from WSSB who were taking classes in the local public schools, taught career education and worked with students in community based work experience placements.

Lori has helped develop programs to improve employment prospects for blind students. She was part of a team that developed the Youth Employment Solutions (YES), a summer career education and work experience program for students with visual impairment. She has been a long time staff member for a summer course for public school educators. Lori has served on boards and commissions in the state. Currently she is serving on the Disability Transition Task Force. Locally she is a member of the Fort Vancouver Lions Club and has given her time to coaching soccer and participating in efforts like the Walk and Knock Food Drive.

**Victoria Bradford**

Victoria in her interior design shop, Comfort Interiors.

Victoria Bradford is the owner of Comfort Interiors. She bought the interior design business in 2000, and under Bradford's ownership, the company has won awards in both the Vancouver Parade of Homes and the Portland Street of Dreams. She is also one of the founders of Pomeroy Equitable Solutions, a company created to give businesses the opportunity to partner with schools to fund needed programs.

Beyond her full-time duties as a business owner, Bradford has served on the Evergreen Public Schools Board of Directors for the past 15 years. Bradford has served four times as Board President and Vice President, as well as the legislative representative and federal liaison for both the EPS District and the Washington State School Directors Association. The Evergreen Public School District is the fourth-largest school district in the state, and the third-largest employer in Clark County, with more than 27,000 students and an annual budget of over \$240 million. She has been a leader during highs and lows in the district, from the budget cuts of the late 2000s to the opening or remodeling of 15 schools. A signature achievement was her instrumental role in researching and establishing Henrietta Lacks (HeLa) High, a bioscience and healthcare high school, in the district. Bradford is also a founder of the Quality Schools Coalition of SW Washington.

Bradford is a member of the Vancouver Downtown Association.

She is on the Development Committee at The Fort Vancouver National Trust and has parlayed her love of ballroom dancing into best dance honors at the Trust's 2012 Dancing with the Local Stars competition.

## Presidential Coins

Engineering professor Izad Khormaei receiving a Presidential Coin at the State of the College Address.

In 2007, Clark College President Bob Knight introduced a new honor at Clark College: the presidential coin.

The coin is given to faculty and staff members who provide

exemplary service to Clark students, the college and the community. The honorees are decided by the president and are kept secret until the names are announced—generally on Opening Day in the fall or during the annual State of the College address.

Five Clark College employees received Presidential Coins during his 2015 State of the College Address on January 15. They were:

Carolyn Johnson

### **Carolyn Johnson**

Carolyn Johnson has worked at Clark College in various capacities for 10 years, the past six of them in Career Services, where she currently holds the position of Employment Specialist & Co-op Coordinator. Her main focus and interests include assisting students with their job search and doing resume critiques. “I have seen her work tirelessly to help students start from a blank page, get the words on paper, develop a thoughtful summary statement, and assist with the smallest details of formatting,” President Knight said in presenting her with the coin. “She does this with patience and care for the student.”

Knight also cited Johnson’s work with international students, helping them to understand American employment practices and job-search strategies.

## **Izad Khormae**

Professor Izad Khormae has taught Computer Science and Engineering at Clark College since 2002. He also has teaching experience at Oregon Institute of Technology, Washington State University, and Iowa State University, as well as more than two decades of engineering and managerial experience at prominent companies such as Hewlett-Packard. He is also the founder of e1 Solutions, a Vancouver-based online business software solution company.

Professor Khormae also organizes a quarterly exposition where Computer Science and Engineering students can present their ideas for projects, which can range from bark-cancelling noise machines that can mute a neighbor's noisy dog to mobile apps that help students with time management. "He loves working with students and helping them complete their projects," said President Knight.

Karla Sylwester with fellow dental hygiene professor Brenda Walstead.

## **Karla Sylwester**

Professor Karla Sylwester, who is retiring later this year,

has been the lead restorative instructor in Clark's Dental Hygiene program for more than 30 years. "She is regionally and nationally known for her teaching skills," said President Knight. "People call from all over the U.S. to get help from her for their board exams."

Sylwester regularly organizes group activities to help boost morale and student success, including her annual Halloween bowling extravaganza and her Monday night "Carving with Karla" sessions to help students pass their restorative board exams. Her no-nonsense demeanor has won her fans among students and faculty alike. "Because she cares, she's tell you like it is," President Knight said. "I really appreciate that."

Audra Rowton

### **Audra Rowton**

Audra Rowton began working in Clark's Purchasing department 13 years ago. She is now the department's secretary senior. Her work ethic began early: She earned her associate degree in secretarial science at Rio Hondo College in Whittier, California, while also working full-time.

"I love Clark College because I work with a lot of great people," said Rowton. "I really enjoy working with the faculty and being available to help the students with their questions."

Dean of STEM, Peter Williams; Vice President of Instruction Dr. Tim Cook; Jim Watkins; and Director of Facilities Services, Tim Petta.

### **Jim Watkins**

Project Manager Jim Watkins has been responsible for managing and seeing through to completion many of the college's large capital projects, including the Clark Center at Washington State University Vancouver and Clark College at Columbia Tech Center (both of which came in on time and under budget, Knight noted). Currently Watkins is overseeing the construction of the new STEM building on Clark's main campus, after which he will begin planning Clark's new North County campus.

"He has earned a reputation for his thorough knowledge of all aspects of facility planning, design, and construction; his attention to detail; and his problem-solving skills," said President Knight. "He has taken on our biggest capital projects with enthusiasm, perseverance, and a commitment to building the best possible facilities for our students, faculty, and staff."

Sue Williams

## **Sue Williams**

Sue Williams began her career at Clark in 1996 as a Human Resources Assistant Senior before becoming a Recruiting Manager, then Assistant Director of Human Resources, until moving to her current position as Associate Director of Human Resources. “She is the expert in HR policy and practices for the college,” said President Knight. “She heads the training, recruitment, hiring efforts and the benefits team of the college efficiently and with a true team spirit.”

Knight commended Williams for her “open, honest, consistent and fair” way of handling Classified Staff and Association for Higher Education discipline and grievance issues, and that “she is a huge asset to the college, supporting the students and employees without hesitation and always with a smile.”

*Photos: Clark College/Jenny Shadley*

---

# **A Decade of Service**

During her decade as a Clark College trustee, Sherry Parker has been a frequent presence at the college.

Ever since she first became a member of the Clark College Board of Trustees in 2003, Sherry Parker has been a vital presence at the college, where she has faithfully attended not just board meetings but also Opening Days, State of the College addresses, cultural events, Commencement ceremonies—even when inmates were celebrating earning their GEDs through Clark at Larch Correctional Facility, Sherry Parker was there.

Last Thursday, however, Parker attended her last board meeting, as her tenure has officially expired. There was little fanfare at the event; Clark College President Bob Knight had hosted a private celebration at his home that Monday to thank Parker for her decade-long service to the college. Even so, as each trustee rose in turn to speak, it became clear how valuable Parker has been to the board.

“Sherry Parker was Clark College at the state level,” said

Trustee Jada Rupley, referring to Parker's role as a tireless committee member of the statewide Trustees Association of Community and Technical Colleges.

Clark College Trustee Jack Burkman, Trustee Emeritus Sherry Parker, alumna Dena Brill, Trustee Royce Pollard and Trustee Rekah Strong at the 2014 State of the College address.

That work earned her a TACTC Trustee Leadership Award earlier this year. Her nomination for the award cited her work in helping the college complete several key initiatives including the construction and opening of Clark College at Columbia Tech Center and the opening of the Oliva Family Early Learning Center, adding that she "has been a central figure in keeping the college focused on the student experience and student success. She is truly an advocate for students."

Parker's focus on students was due in part to her own experiences as a Clark student. She enrolled in the college in 1981, soon after she moved to Vancouver due to her husband's job. Parker, who already had a bachelor's degree in education from the University of South Florida, realized she would need to improve her computer skills to compete in the modern job market. She earned her Associate of Applied Science degree in 1983 and wound up working for the college as well, working

part-time as a department secretary and teaching computer skills to mature learners through Clark's Corporate and Continuing Education.

Sherry Parker, *blue jacket*, could always be counted on to attend events during her decade-long tenure as a Clark College trustee.

Eventually, Parker moved on to other job opportunities, working as a substitute teacher, in advertising, as a legal secretary in the juvenile court system, and in the Clark County Clerk's office as Deputy Clerk. She was elected County Clerk in 2006 and served in that position until 2011.

In an email after the board meeting, Parker called the end of her tenure on the Board of Trustees "bittersweet."

"I would be happy to continue my service, but after almost 11 years, it is time for a new perspective on the board," she wrote. "I know [Michael] Ciraulo will do a great job as a trustee."

Ciraulo, who also attended Thursday's board meeting—his first—acknowledged during the speeches that he would have "big shoes to fill" in taking Parker's spot on the board. But even though Parker's time on the board is ending, she will continue to be a familiar presence at the college—in fact, she has already begun volunteering at the college's Corporate and

Continuing Education office.

“I will always be a member of the Penguin Nation,” Parker wrote, “and I will help out in any way I can.”

*Photos: Clark College/Jenny Shadley*

# **Icy                      Adventures                      in Microbiology**

Photo courtesy of Dr. Roberto Anitori

From one-celled organisms to imaginary elephants, we have much to learn from the non-human life forms around us. That is the theme of this year's season of Clark College's Faculty Speaker Series, "Microbes, Pets, and Puppets: What Animals Can Teach Us."

The series begins on October 30 at 4 p.m., when biology professor Dr. Roberto Anitori presents "Microbial Heroics in Antarctica" in the Ellis Dunn Community Room (Gaiser Hall room 213) on Clark College's main campus.

This presentation is a fascinating exploration of some rarely seen "extremophiles," microbes that have adapted to survive in places where most living things could not—in this case, the remote and lightless ice caves in an Antarctic volcano. Part travelogue, part scientific presentation, Dr. Anitori invites guests to voyage with him on his 2010 research expedition to

Mt. Erebus, the second-highest volcano in Antarctica. Through photos and stories, he will share his experiences training to survive in sub-zero temperatures, as well as his initial findings about the microbes living inside Mt. Erebus's caves—which could have implications for life in even more difficult-to-research regions, like the deep sea, areas far below the earth's crust, or even other planets.

"We think these ice caves are models for environments without light," says Dr. Anitori. "Most life on earth depends on sunlight."

Instead, these microbes survive on nutrients within the very rock itself—for example, digesting manganese and iron the way other organisms digest biological material. This discovery could, in turn, provide valuable insights into a little-understood aspect of Earth's ecology.

"Most people, when they think about microbes, they think about things that make you sick—or make yogurt or beer," says Dr. Anitori. "But 95 percent of the microbes on this planet don't have anything to do with those things."

This presentation is free and open to the public. Individuals who need accommodation due to a disability in order to fully participate in this event may contact Clark's Disability Support Services Office at 360-992-2314 or 360-991-0901 (video phone) or email [dss@clark.edu](mailto:dss@clark.edu) within one week of the event.

Future Faculty Speaker Series presentations include "Why Do We Need a Pet? Effects of animals on children's socio-emotional development" and "Bilingual Puppetry: a Project-Based Learning Exploration."

**About Dr. Roberto Anitori**

Dr. Roberto Anitori

Dr. Roberto Anitori has spent many years studying extremophiles and other microbes. After earning both his bachelor's and doctoral degrees in Molecular Biology and Microbiology from the University of New South Wales in Sydney, Australia, he worked in research labs at Macquarie University in Sydney and at Oregon Health and Science University. In addition to his work in Antarctica, he has researched extremophiles in other volcanoes, deep-sea vents, underground water tables, deserts, and radioactive hot springs; he wrote the first published description of microbial life in the radioactive Paralana hot spring of Australia. He has been invited to lecture by organizations including the Australian Society for Microbiology, the Geological Society of Australia, and NASA. In 2011, he received the Antarctica Service Medal from the National Science Foundation. Dr. Anitori began teaching microbiology at Clark in 2008 and received a tenure-track faculty appointment in 2013. He is the editor of the book *Extremophiles: Microbiology and Biotechnology* (2012, Horizon Press).

---

# Exceptional Classified Staff Awards

Melissa Williams receives her Exceptional Classified Staff Award during Opening Day 2014.

Opening Day is traditionally the occasion for announcing the yearly Exceptional Classified Staff Awards, which recognize two classified employees for their contributions to Clark College. Recipients receive a glass plaque and \$1,000, funded through an anonymous donor's contributions to the Clark College Foundation.

For their "exemplary work performance, outstanding service to the college, a positive and cooperative spirit, and/or special achievements or contributions to the college," Enrollment Services Program Coordinator Melissa Williams and Facilities Services Custodian Derald Richards were named the winners of

the 2014-2015 Clark College Exceptional Classified Staff Awards.

President Knight presents Derald Richards with his Classified Excellence Award.

### **Derald Richards, Custodian**

Derald Richards was described in his nomination as “consistently performing at a level above and beyond the scope of his job.”

While Richards is naturally a quiet and retiring person, those who work with him regularly at Clark College at Columbia Tech Center have learned to value his cheerful attitude, helpful suggestions, and the way he takes pride in everything that is asked of him. One nominator wrote, “He will drop whatever he is doing to assist staff, faculty, or students. No matter how busy he is, he always greets everyone with a smile and never a complaint.”

Another coworker summed Richards up with just two words: “Super Wonderful!!!”

President Knight presents Melissa Williams with her Exceptional Classified Staff Award.

### **Melissa Williams, Enrollment Services Program Coordinator**

Whether they know it or not, probably every student who registers for classes at Clark has been supported in some way or another by Melissa Williams. Her nomination states that she “consistently goes far beyond what is expected of her job title to see that students, faculty, college staff, and the community get what they need. She earnestly engages in students’ experiences at Clark and has helped to create an environment of focused customer service, communication, and teamwork. Her communication skills have been instrumental in explaining policies and procedures, assisting new staff, keeping her coworkers in the loop when changes occur, and keeping everyone up to date on a daily basis. Her approach, keeping students as the forefront of what we do, has improved and enhanced Clark College’s ability to meet the changing needs of our student population. ... In truth, she is the very definition of an exemplary employee.”

Other nominees for 2014-2015 were: Scott Coffie, eLearning, Information Technology Specialist 4; Rose Gardner, Administrative Services, Office Assistant 3; Silvia Marinova, Business Technology, Instruction & Classroom Support

Technician 2; Vanessa Meyer, Behavioral & Social Sciences, Secretary Senior; Lynn Vanhoomissen, Security & Safety, Program Support Supervisor 1; Jennifer Vernon, Early Childhood Education, Program Specialist 3; and Heather White, Disability Support Services, Program Support Services Supervisor 2.

The Clark College Foundation instituted the yearly Exceptional Classified Staff and quarterly Classified Staff Excellence awards in 1997 to recognize exceptional staff members. Nominations may be submitted by classified, administrative and exempt staff; faculty; students; alumni; retirees; college trustees; and Foundation directors.

## **Presidential Coins**

President Bob Knight introduces the Presidential Coin recipients on Opening Day 2014.

In 2007, Clark College President Bob Knight introduced a new honor at Clark College: the presidential coin.

The coin is given to faculty and staff members who provide exemplary service to Clark students, the college and the community. The honorees are decided by the president and are kept secret until the names are announced—generally on Opening Day in the fall or during the annual State of the College address.

Five Clark College employees received Presidential Coins during Opening Day 2014 on September 10. They were:

## Kael Godwin

As a Research and Analytics Professional working within the college's Office of Planning & Effectiveness, Kael Godwin "transforms the way we use data so that we can make better decisions," said President Knight. In his seven years at Clark, Godwin has earned a reputation as someone who's "approachable and responsible ... and will do anything to help the college, even if it is outside his job description."

Knight also cited Godwin's key role in supporting the implementation of the college's new customer relations management software, and noted that many people at the college have remarked upon his strong work ethic and commitment to the college.

## Ron Hirt

Fiscal Analyst Ron Hirt began working at Clark College in 1983. In more than 30 years of service, he has become known not just for his daily runs around campus—no matter what the weather—but also for his expertise in finding any kind of information located in the college’s financial management system, regardless of how buried, obscure or complex it is. He has been a key player in many of the financial audits that the college has undergone – and passed, always helping to ensure there are no findings.

“The guy is meticulous,” President Knight said. “You can ask him for any kind of file and he knows right where it is. When I first came to Clark as a vice president, he was one of the people I knew I could go to for help.”

## **Susan Muir**

Student Affairs Administrative Assistant Susan Muir began working at Clark in 2007; through the years, her service to Clark has spanned many areas pertaining to her department, including retention programs, student conduct, behavioral intervention team, and the Veterans Resource Center. “In every situation, she follows through to make sure the students and programs are well-served,” said President Knight. “Her knowledge, skills, and abilities are known across the college

because of her willingness to provide a helping hand.”

Knight added that Muir is known for creating a calm and welcoming environment in her office that helps support students who arrive there in crisis, as well as for being willing to share her time and energy (not to mention her impressive stash of chocolate) with visitors to Student Affairs.

**Vicki Cheng**

Vicki Cheng, an Administrative Assistant in the Workforce, Career & Technical Education department, has been a Clark employee for 32 years. Her depth of experience is a great asset to her department and allows her to prioritize day-to-day issues effectively.

“She is always willing to step up and assist anyone who walks through the office door with impeccable customer service and a genuine desire to help,” said Knight. “She always makes a point to know and understand the projects across the unit so that she is capable of answering questions that may arise, and often offers suggestions that improve the end product.”

## Patti Serrano

Business Administration professor Patti Serrano is no stranger to honors at Clark: She was named one of the college's 2012-2013 Exceptional Faculty Award recipients. "She has been a rock in her division for 33 years and counting," said President Knight. "Through her leadership, she has formally and informally mentored faculty, staff and administrators."

Serrano has been a key participant in such important collegewide efforts as strategic planning, accreditation, and course development. Currently, she is leading her department's efforts to develop a new Bachelor of Applied Science degree in Management. "She is admired and respected by students, faculty, and staff alike," said President Knight.

Clockwise from top left: Kelly Fielding, Chris Martins, Sarah Theberge, and Jim Wilkins-Luton.

A professor who never planned on going to college, A Web-savvy wiz who stays in touch with students on Twitter, an aspiring academic who turned his back on the ivory tower in favor of more hands-on teaching, and an experienced clinician who takes the mystery out of a much-misunderstood subject—these are the recipients of the 2013-2014 Clark College Exceptional Faculty Awards, which were announced during the college's 2014 Commencement ceremony and officially presented to their recipients during Opening Day activities on Sept. 10.

The Clark College Exceptional Faculty Awards are presented annually to full-time and part-time faculty members. This year the award recipients include two full-time tenured professors and two part-time adjunct instructors, whose detailed

biographies can be accessed through the links below:

- Kelly Fielding: The voice of experience
- Chris Martin: The technophile with human feeling
- Sarah Theberge: The accidental professor
- Jim Wilkins-Luton: The book-lover gone digital

The awards are made possible through an endowed trust fund established by the Washington State Legislature and the Clark College Exceptional Faculty Endowment Fund, which was established in 1993. That fund provides recognition of exemplary work performance, positive impact on students, professional commitment, and other contributions to the college. Nominations can be submitted by Clark College students, faculty, classified employees, administrators, alumni, Board members, and Foundation directors.
