

Student stories: Flying with a Phoenix

My name is Lily Hart, and I am a student at Clark College. I'm also the Managing Editor of *Phoenix* and was Assistant Literary Editor last year. *Phoenix* is Clark College's award-winning literary and art journal. Run by student editors and faculty advisers, it publishes work from Clark College students, faculty and alumni—mostly students. We publish in print and online, and accept a wide array of work including fiction, creative non-fiction, poetry, ceramics, design work, music, and dramatic recitals. You can go online at clarkphoenix.com to get a full list. This year, *Phoenix* is proud to introduce a new category: graphic novels.

I am hoping that this post will give you insight into the behind-the-scenes process of *Phoenix*—and will maybe prompt you to submit something to the journal yourself!

Right now, the 2016 *Phoenix* is just finishing up its pre-production phase. Here are a couple little tidbits about the early stages that many people aren't aware of. Clark offers a three-credit class in the fall – Intro to Literary Publication. In this class, students work on marketing and promotions; interview plans and strategies; and editing 101. If you are curious about some of the work done in the class, take a look at the promotional posters going up around campus, as well as a slide in the Gaiser Student Center: We created all of those in our class, and it's fun to be able to see our "homework" on display all over campus. We have a class of 16 students, and everyone is enthusiastic about the work we've started.

One of my classmates in Intro to Literary Publication, Rowan Walters, is *Phoenix's* Poetry Editor. "Starting in the class and progressing to the staff has made me feel valuable, both to the campus of a school I love as well as to society in general," she says.

I would definitely agree with this. For me, one of the other highlights of being involved is getting to know a lot of amazing people with similar interests. It's a nice community feel.

You also get real-world experience in being an editor, gaining organization skills and managing projects, which are all perfect skills for today's job market. As Jennie Avens, our Fine Arts editor from 2015 and again staff for 2016, says,

“Working with this team was a great practical experience that gave me a sneak peek of what to expect if I get into publishing after graduation.” Whether a student's career goals lie in editing and the arts, or in something completely different, the skills gained from being on *Phoenix* gives are always applicable.

Another thing which I'm really excited about is the awards *Phoenix* has won. In 2014, the journal won first place in the American Scholastic Press literary and art journal competition, and individual student work won as well. Last year, (when I was involved, so this is super exciting!) it won the 2015 Washington Community College Humanities Association's Large Budget Literary/Arts Magazine of the Year, and the Community College Humanities Association award for first place Literary Journal. This is a huge deal for us because we have never won that award before.

Remember, submissions are open to the entire college community—students, faculty, staff and alumni—and the submission deadlines are January 9 for literature, January 19 for art, and February 29 for video. Visit clarkphoenix.com to find out more about how to submit your work. We hope to see your submissions!

This article was contributed by Clark student Lily Hart.

Meet the Coaches

With their low tuition rates and open-door enrollment policies, community colleges have long been a way for students of all socioeconomic backgrounds to pursue higher education and career advancement. However, students experiencing poverty often face challenges that go beyond paying for school. Financial hardship can turn anything from transportation to Internet access into a potential obstacle that could derail a student's plans.

That's why Clark College recently hired four new Resource Coaches to help students remain successful and supported all the way through their educational journey. The coaches were hired through a Working Families Success Network grant announced earlier this year, with supplementation from a grant

from the Community Foundation of Southwest Washington, and are part of a collegewide effort to improve Clark's support and understanding of students in poverty.

"We want these coaches to be a resource not just for our students, but for our employees as well," said Associate Director of Workforce Education Services Armetta Burney. "Our hope is that, when staff or faculty encounter a student who seems to be overwhelmed by poverty-related challenges, they'll know that they can refer the student to one of our coaches for help."

According to most-recent data, almost half of Clark's students are low-income, and almost three-quarters of them are first-generation students. These students may lack stable housing or a quiet place to study. They may have difficulty affording basic school supplies, or child care, or transportation to and from school. Additionally, college can feel very lonely for these students. Because they're the first to attend college, they may not feel like they can turn to their family or friends for support or advice; meanwhile, they may feel alienated from classmates and faculty who don't understand the unique challenges they face.

These four new Resource Coaches are meant to change that dynamic. Now, when a student is making the transition from basic education courses to credit-bearing college ones, they'll have support from a Transitional Studies Coach during the process. When they're struggling to afford housing or food, the Workforce Education Services Coach can help them apply for public benefits and connect with community organizations. If college becomes overwhelming and their grades begin to slip, the Retention and Career Coach can help them get back on track. And if they find their finances stretched thin, the Financial Literacy Coach can help them set up a budget and figure out strategies to make the most out of their financial resources.

While many of these services have been available at the college in different forms, the coaches add a personal relationship that can help keep at-risk students from slipping through the cracks.

“We almost never talk to a student just once,” explains Transitional Studies Coach Nicole Hopkins. “After we meet with a student, we call them back. And I will call them again and again if I have to: ‘Hey, how are you doing? Are you working on that plan we figured out for you?’ I am happy to walk students across the street to someone’s office if I think they need more help after our meeting.”

Additionally, the Resource Coaches serve as advocates to the rest of the college, sharing their students’ perspectives and working to make Clark a more inclusive environment. They offer workshops to Clark faculty and staff on how to communicate with students experiencing poverty, including one held during the college’s first-ever Teaching and Learning Days in August. The additional grant from the Community Foundation of Southwest Washington funds the Financial Literacy Coach’s work teaching workshops on financial resources and skills to students in order to help break the cycle of intergenerational poverty.

“We want to help remove the stigma and misperceptions about poverty, both here at Clark and within our broader community,” says Director of Career Services Edie Blakley. “We see it as part of the college’s role as a learning institution.”

Meet the Coaches

Nicole, Transitional Studies Coach

Nicole works with students enrolled in Clark's Transitional Studies program—which includes English as a Second Language, Adult High School Diploma, and GED Preparation—as they transfer into credit-bearing courses at the college. When students come in to meet her, she helps them assess which resources they have, and which they lack, to succeed at Clark. She discusses their personal and educational goals and helps them identify potential barriers, connecting them to resources that might help diminish those barriers. Often she guides them through options like I-BEST and Learning Communities that could help them enter college successfully. And she helps them with college logistics like testing and registration.

Nicole calls her job “exciting and inspiring,” adding, “each one of us has our own story, and it is my privilege to be a part of someone’s story. I get the opportunity to help students move past the barriers on their journey toward success and the best part is, I get to celebrate with them as they reach each goal.”

Contact: TBG 209; M-F 8 a.m. – 4:30 p.m.; nhopkins@clark.edu

Angelica, Workforce Education Services Coach

Angelica works primarily with students enrolled in Workforce Education programs, which help low-income and unemployed individuals earn vocational/technical degrees and certificates. She helps guide these students through college processes, from applying for financial aid to setting up their student email. With years of experience working with people experiencing poverty, she can help connect students to support services both inside and outside the college so they can focus on their education.

“My position excites me because I am able to provide information to students about resources that they may not have been aware of,” Angelica says. “I love to see students grow and develop into professionals as they complete their degrees at Clark. I have been able to build lasting relationships with students that go beyond degree attainment.”

Contact: GHL 128; T 9 a.m. – 5 p.m., W 9 a.m. – 2 p.m., Th 9 a.m. – 1:30 p.m.; WESCoach@clark.edu

Craig, Financial Literacy Coach

Attending college brings with it a whole slew of financial challenges. For a person who's used to living paycheck to paycheck, receiving a quarter's worth of financial aid at one time can be difficult to manage. Books, fees, and equipment can cost hundreds of dollars. Craig's job is to help students manage their budgets and avoid common pitfalls. He helps them check their credit scores and shop for the best bank or credit card to fit their needs. He works with them to develop plans to work through any debt or financial challenges they currently have, as well as long-term plans to help them create a solid financial foundation from which to build. Additionally, Craig regularly holds workshops on financial literacy through the Career Center and the Library.

"I enjoy helping students understand how to make money work for them, thereby bringing them closer to attaining their dreams," he says.

Contact: PUB 002; M-F 9 a.m. – 5 p.m.; cebersole@clark.edu

Alex, Retention & Career Coach

Most students come to Alex for one of two reasons: Either they're not sure where they want to go, or they've hit a stumbling block on the road to get there. Alex helps students explore careers and academic fields that fit their skills and interests, and then create a plan to reach their chosen goal. Additionally, she helps students whose grades have triggered an Academic Early Warning, helping them take the steps they need to get their grades back on track without jeopardizing their financial aid. She takes a holistic look at their lives, helping connect them with services that can help them with not just their academic challenges but their personal ones as well.

"I think being a former Clark student myself helps me understand what these students are going through," says Alex, who earned her associate degree in 2009 before transferring to Portland State University for her bachelor's. "What excites me about this position is the opportunity to support students in accessing and using relevant campus and community resources, help prioritize their success and set strong, personalized goals, and ultimately tie these skills to their future career goals."

A springboard to opportunity

Three Clark College Transitional Studies students celebrate earning their high school diplomas during Clark's 2015 Commencement ceremony. Beginning in the 2015 summer quarter, students like them have a new option for earning their diploma called High School 21+.

Starting this summer quarter, adults in Southwest Washington who lack a high school diploma have a new, streamlined way to earn this valuable educational achievement. Clark College has adopted High School 21+, a new program in Washington State

that is designed to help adults gain the education they need to participate in today's workforce.

"There are so many adults who are afraid of returning to school or who are worried about the GED exam and that stands in their way of defining and reaching their goals," said Monica Wilson, Transitional Studies Program Manager. "High School 21+ gives adults a new pathway to meet their goals with additional supports from the Transitional Studies team to help make the process as easy as possible."

High School 21+, which was launched in 2014 in 12 community and technical colleges by the Washington State Board for Community and Technical Colleges, is open to all Washington residents aged 21 or older who do not have a high school degree. While students have always been able to earn high school diplomas or prepare for the GED through two-year colleges, this new program helps remove some obstacles to the process. Students can earn credit for skills gained through work or military history, helping to reduce the amount of time spent in classes that are unnecessary. Also, the program infuses basic skills classes—things like computer skills or writing that students often need to take, but that previously did not apply toward their high school credential—with rigorous academic coursework, allowing them to apply toward a diploma.

According to the U.S. Census, 10 percent of Washington State adults (defined as 25 years or older) do not have a high school degree. Meanwhile, according to recent studies, more than two-thirds of all jobs in Washington State will require postsecondary education by 2018—the sixth-highest rate in the nation.

High School 21+ is designed to make earning a high school diploma more accessible. Classes cost \$25 a quarter and books are provided for no additional charge; classes are offered at two locations, during times that fit working adults'

schedules. And, because federal regulations now require a high school diploma or equivalency to receive financial aid, High School 21+ makes college more accessible as well for thousands of Washington State residents.

Clark College's Department of Transitional Studies launched High School 21+ in the 2015 summer quarter with 41 students enrolled. Already, five of them are expected to earn their high school degrees in fall quarter.

A Night of Celebration

Almost 740 graduates attended the 2015 Clark College Commencement ceremony, held June 18 at the Clark County Event Center.

The sun shone, the bagpipes sounded, and the members of Clark College's 79th graduating class gathered together—more than 730 of them, making the 2015 Commencement ceremony the college's largest yet.

The Clark County Event Center was filled with friends, family members, and other well-wishers at the event, which took place during the evening of June 18.

First-generation college graduate David Scott '15 attended the 2015 Commencement ceremony.

Approximately 20 members of the crowd were there to cheer on David Scott, 22, who was receiving his Associate of Arts degree. "I'm the first one in my family to graduate from college," said Scott, whose neck was adorned with multiple leis, a traditional Hawaiian token of celebration. "They're pretty stoked."

Scott, who is transferring to Washington State University Vancouver in the fall and hopes to become an elementary school teacher, said he was impressed by the caring nature of his professors at Clark. "They genuinely want you to be successful," he said as he waited in line to enter the ceremony.

Scott said he also appreciated the flexibility of Clark's online courses. "I've been working fulltime as an overnight stocker at Winco Foods," he explained. "It's really good that they have online classes because I get off work at 7:30 a.m. and need to sleep."

In total, some 2,000 degrees and certificates were conferred upon the Class of 2015. This year's graduating class included 278 Running Start graduates—a new record for the college,

which has the largest Running Start program in the state.

“We got here at 4:45 to line up,” say these Running Start students from Woodland High School, including N.E.R.D. Girls president and Clark Aeronautics Club member Adeline Dinehart, *third from left*.

Adeline Dinehart stood with five friends at the head of the line of graduates. All six young women were Woodland High School students who had attended Clark through Running Start. Dinehart had thrived at Clark, where she became president of the popular N.E.R.D. (Not Even Remotely Dorky) Girls Club and a member of the Clark Aeronautics Club, which successfully participated in a NASA rocketry competition in Huntsville, Alabama, this spring.

“We were the only community college in the maxi competition,” she said proudly. “The atmosphere there was great—really competitive, but also really encouraging of one another.”

Dinehart said she appreciated the faculty’s promotion of women in Science, Technology, Engineering and Math, citing engineering professors Carol Hsu and Tina Barsotti in particular. “Tina and Carol are amazing,” she said. “They have taught me so much over the past two years.”

Dinehart will be attending University of Washington in the fall. Two of her friends, Jamie Kitchen and Shianne Burhop, are also college-bound, but headed to George Fox University, where they will be roommates.

“The credits from Clark transfer really well,” said Kitchen. “That’s part of why I chose to come to Clark.”

“Going to Woodland, you have the choice as a Running Start student between Lower Columbia College and Clark,” explained Burhop, who had adorned her cap with the Bilbo Baggins quote, “I think I am quite ready for another adventure.”

This year’s ceremony saw an explosion in cap decoration, and as students filed into the ceremony, the westering sun glinted off of messages outlined in glitter and rhinestones.

Outgoing ASCC President Emmah Ferguson addressed the Class of 2015 at Commencement. Both her siblings also attended Clark through Running Start; Ruth graduated from the University of Washington the week before Clark’s Commencement and Zachary is entering Duke Law School on a full scholarship in the fall.

The ceremony itself held many highlights. Student speaker and ASCC president Emmah Ferguson shared how Clark had developed

an unrealized love of science within her.

“We have all had obstacles,” she said. “For me, my biggest obstacle was probably myself and my ideas about what I could and couldn’t do. ... It is our resilience and persistence that has gotten us this far, and it will take us where we want to go next.”

Curt Warner, *left*, thanks Clark College President Robert K. Knight before giving the 2015 Commencement keynote address.

Former Seattle Seahawks running back and businessman Curt Warner gave the keynote address. Noting that he had grown up in West Virginia’s coal mining country, where career options were limited, he urged graduates to aspire toward their goals, even if others tried to dissuade them.

“If people say you can’t succeed, you don’t have time to listen to that,” he said. “Dedicate yourselves to your goals. Never give up. People who make goals get slapped down at least once. Everyone loses sometime. It’s how you handle the losing that makes you a winner.”

The ceremony also served as the announcement of the 2015 Exceptional Faculty Awards. The 2015 awardees are Steven Clark, professor of biology; Alison Dolder, instructor of baking; Matthew Gallaher, instructor of English; and Michiyo

Okuhara, professor of Japanese. President Robert K. Knight also announced the recipient of the 2015-2016 Community College President's Award, Kathleen Fockler.

High school diploma recipient Leeann Hodge addressed the 2015 Commencement. This was the first time in many years that high school diploma and GED recipients participated in Commencement.

New this year, students who earned GEDs or High School Diplomas through the college's Transitional Studies program were invited to participate in the ceremony. Approximately 25 of these students participated in the ceremony, and High School Diploma recipient Leeann Hodge was one of two student speakers to address the crowd.

Transitional Studies

graduates Chris Boots, Devon Zach, and Amanda Halbert wait in line to participate in the 2015 Commencement ceremony.

Before the ceremony began, these students had stood in a line adjacent to the line for associate degree and certificate recipients. One of them, Amanda Halbert, said she decided to pursue her GED once her youngest child was getting ready to start kindergarten. She is beginning college-level classes at Clark now, with the goal of earning a degree in graphic design.

“It’s a little nerve-wracking, looking across at the people in that line, getting their associate degrees,” she admitted. “But I’m proud of myself for being here. And I know I’ll be in that line one day.”

On Her Way

Kathleen Fockler smiles after receiving the news that she has received the 2015-2016 Community College President's Scholarship.

About a month ago, Kathleen Fockler was on the way to a Beaverton testing facility to sit for the National Council Licensure Examination (NCLEX), the exam each nursing student must pass before officially becoming a Registered Nurse.

She was ready. It had taken her 20 years to reach this point, but she felt confident that the rigorous coursework of the Clark College Nursing Program had prepared her for the exam. Finally, after years of struggle, she was going to achieve her long-held dream of becoming a nurse.

And then her car broke down.

In the middle of the Route 26 tunnel.

During morning rush hour.

It could have been a disaster. But Kathleen Fockler, age 47,

is not someone to submit to defeat. When the tow truck arrived, she persuaded the driver to take both her car and herself to the testing site. She had driven there the week before just to be sure of the route—"I didn't want to get lost," she explains—so she was able to direct him there swiftly.

"I got there just a couple minutes after the exam began, and when I explained my situation, they let me go ahead and take the test," Fockler recalls.

From the beginning, Fockler's road to becoming a nurse has been beset by unexpected detours and daunting challenges. And each time, Fockler has been able to overcome these roadblocks with a combination of preparation, persistence, and support from those around her. During the 2015 Commencement ceremony, her persistence was rewarded when Clark College President Robert K. Knight announced that she was the recipient of this year's Community College President's Award in honor of Val Ogden. This scholarship provides full tuition and fees for two years to a Clark graduate completing their bachelor's degree at Washington State University Vancouver.

"I still can't believe it," Fockler says. "This is an incredible opportunity. A door has just been opened right up for me."

Fockler began taking pre-nursing courses at Clark in 1994. However, her plans were derailed when her then-newborn son, Gabe, began experiencing seizures and developmental delays. "The timing was not right," Fockler says. She decided to leave school and concentrate on supporting her son and her daughter, MaKenzie, who was born three years after Gabe.

Fockler held onto her dream even while spending many years working as a paraprofessional assistant in the Evergreen School District Early Childhood Center, helping support children with developmental delays. It was only when Gabe

entered Clark through the Running Start program that Fockler felt the time was right for her to return to school as well.

At first, the experience of returning to school after 20 years was intimidating. Courses required online registration—Fockler didn't even own a computer. But she quickly found the support she needed at Clark.

“The resources that Clark has are tremendous,” she says. “There's a math lab, there are computer labs, there's a retention specialist in the nursing department. There's just so much in place to help the student.”

Fockler is quick to point out another resource that helped her on her journey: the college's scholarships office. “When I applied to nursing school, I thought, ‘How am I going to do this?’” she recalls. “At the time, I was working two jobs, and I'd heard how demanding the nursing curriculum was.”

But Clark's scholarship specialists quickly went into action, finding Fockler potential scholarship opportunities and encouraging her to apply. “[Outreach/Scholarship Coordinator] Lizette Drennan was like my cheerleader,” she recalls. “There was a postcard of the scholarship staff that I found, and I stuck it in my binder to remind me about the people who were supporting me. I had a picture of my family, and Lizette's smiling face.”

Presidential Scholarship recipient Kathleen Fockler takes a moment to hug and thank her nursing professors at commencement.

Fockler also found support from the nursing faculty, who encouraged her to keep going. Fockler gained confidence after working in the program's state-of-the-art simulation lab, which helped her develop clinical skills before she even began her internship.

That internship proved to be another challenge. From the beginning, Fockler had set her sights on becoming a pediatric nurse working with medically fragile children, a goal formed through her experiences sitting in hospitals with Gabe early on. But Clark's nursing program had only one pediatric internship opening per cohort.

A faculty member suggested Fockler volunteer at the Center for Medically Fragile Children (CMFC) at Providence in Portland to gain experience. Clark didn't have an internship partnership set up with the CMFC; these agreements are labor-intensive and highly competitive. But Fockler so impressed the CMFC staff as a volunteer that they decided to create an internship partnership for her. Now, Clark has a regular internship opening at the center.

Throughout her studies, Fockler has shown a tireless work ethic. She went over notes while waiting in her children's doctor offices. She reviewed cranial nerves while sitting beside her mother's hospital bed after a surgery. And when Fockler herself had to undergo thyroid surgery, she didn't skip a class, deciding to simply attend the evening lecture rather than her standard morning one.

"Each day, I try to learn everything I can," she says.

On top of all that, Fockler found time to regularly volunteer with the Evergreen School District, the CFMC, SHARE House, and the Student Nurse Association of Clark College.

Despite her talent and perseverance, however, Fockler knew there was another huge hurdle standing between herself and her goal. In order to work in a specialized hospital setting like the CMFC, Fockler would need to earn a Bachelor of Science in Nursing degree. Fockler—who lives in Vancouver with her children; husband, Bunnell; and mother-in-law, Beth LaViolette—has begun working with an in-home nursing care service for medically fragile children. Even so, she couldn't see how she could afford university tuition for both herself and MaKenzie, who is entering the University of Washington in the fall. Receiving the Community College President's Scholarship means her way is now clear to continue her education.

Fockler is effusive in her thanks to all the organizations who have provided scholarships to her, including the Clark College Foundation, Vancouver Rotary, and 40 et 8.

"I guess it really does take a village to raise a nurse," says Fockler, who hopes one day to be able to fund her own nursing scholarship. "The community supported me tremendously, and working hard is my way of paying them back."

Additional Scholarships

Through the support of the Clark College Foundation, two other finalists for the Community College President's Scholarship were awarded \$3,000 scholarships to continue their education. President Knight announced the scholarships to **Julie Mercado** and **Melanie Brawley** during the Commencement ceremony as well.

A Different Kind of Final

Computer Technology instructor Bruce Elgort brings years of private-sector experience to the classroom.

On Thursday, June 11, students in Clark College instructor Bruce Elgort's PHP and SQL programming class (CTEC 227) will face an audience. While that might be standard for a class in the performance arts, it's less expected in a computer science course focused on complex web and application development questions. However, Elgort believes it is exactly the type of thing that will set them apart as they look for jobs.

"The most important thing is that these students are showing what they learned in solving the technical problems in front of them, but it is also important that they learn how to

explain their approach and interact with clients and customers,” Elgort said.

Elgort knows, having spent several years in private industry as the president of Elguji Software and, before that, in IT roles with Sharp Electronics and Underwriter Laboratories. He continues to be engaged in national Open Source software efforts and a variety of other projects. Beyond his deep industry experience, Elgort has distinguished himself as a teacher, earning an Exceptional Faculty Award at Clark College in 2013.

Elgort invites members of the community to attend the presentations, which will take place on June 11 at 4 p.m. in Foster Auditorium on Clark College’s main campus. The crowd of 50 to 60 individuals from the tech community and Clark College are there to provide feedback and learn more about the college Computer Technology program.

Students started their projects by developing detailed application specifications for a fictitious bank called “Greenwell Bank.” Students interviewed their client to see what “the bank” needed for app functionality. Once the specs were approved, they went into the architecture and design phases. From there, they then sought continuous feedback from the application stakeholders as they coded the applications. The projects being presented include two home inventory apps, a construction bidding app, an HR employee review app, and a project management system. All of this occurred within a nine-week timeframe.

While the CTEC 227 presentations are notable for the large public audience expected to attend, many programs at Clark—including Engineering, Computer Science, Mechatronics, and Studio Art—include public presentations to industry experts as part of their final or capstone projects.

Clark College is located at 1933 Fort Vancouver Way, close to

downtown Vancouver. Parking is free. Maps and directions are available online.

Individuals who need accommodation due to a disability in order to fully participate in this event should contact Clark College's Disability Support Services Office at 360-992-2314 or 360-991-0901 (VP), or visit Penguin Union Building room 013 as soon as possible.

Great News

The spring 2015 staff of *The Independent*, Clark's student newspaper.

Clark College student journalists captured all three top awards in a competition for the best in news reporting,

editing and production by teams at 13 community colleges in Oregon and Washington, according to results made public Sunday.

It was the third year in a row that the news staff of The Independent captured the Publications Sweeps, a tally of the most first-, second- and third-place finishes for a school in 21 categories of the competition. The Independent staff also took first in the General Excellence category of the contest, which, this year was sponsored by the Pacific Northwest Association of Journalism Educators.

Former Clark student journalist Emma Fletcher, who is now studying in Dunedin, New Zealand, captured first in the Individual Sweeps, picking up top awards in feature reporting and feature photography, two second-place awards in news reporting and multimedia story-telling and an honorable mention in portrait photography.

“This is such a terrific testimony to the hard work, determination and skill of some fine students and young people,” adviser Dee Anne Finken said. “The Independent staff demonstrated once again that they can achieve great outcomes by way of great effort and dedication.”

Finken said the results were also satisfying because the competition this year was broader than in years past. Washington Community College Journalism Association media advisers opened the contest to two-year schools in Oregon, Montana and Idaho this year and conducted the contest under the banner of the Pacific Northwest Association of Journalism Educators.

“The competition was tougher and larger in number, but Clark students again prevailed,” she said.

The Independent staff finished in front of Mt. Hood Community College students in Gresham, Oregon, who took second in the Publications Sweeps and Shoreline Community College student

journalists from Shoreline, Washington, who finished third.

In the General Excellence category, Clark student journalists finished in front of the Pierce College student news staff, from Lakewood, Washington, who took second, and the Shoreline staff, who took third.

Finken acknowledged the success was also due to the support of other faculty and staff at Clark, as well as professionals in the community, especially those who serve on the college's Student Media Advisory Committee. "The Independent's success is also because we've had thoughtful people supporting a fine co-curricular program that blends an extra-curricular activity with academics. It's been a great partnership."

Tra Friesen, The Independent's editor-in-chief, who won third place in the news photography category, said his work for the publication has been highly rewarding.

"Joining the Independent is hands-down the best decision I ever made for my education," Friesen said. "Not only did I improve as a critical thinker and writer, I also learned real world skills like leadership, teamwork, and communication."

As for the team's success, Friesen credited a dedication to constant improvement. "We are never satisfied and we always try to make each issue better than the last."

Sports editor/managing editor Tyler Urke won first place in sports feature reporting and an honorable mention in feature writing.

Multimedia editor Scott Unverzagt, chief photographer Kameran Johnson and design manager Kyle Bliquez also won first-place awards; and sports reporter Becca Robbins captured a second-place in sports news reporting.

Other college news staff who competed were from Everett Community College in Everett, Washington; Linn-Benton

Community College in Albany, Oregon; Green River Community College in Auburn, Washington; Edmonds Community College in Lynnwood, Washington; Seattle Central College; Portland Community College; Peninsula College in Port Angeles, Washington; and Whatcom College in Bellingham.

Entries consisted of work students completed during the Spring 2014, Fall 2014 and Winter 2015 terms.

Eighteen judges—professional and former staff members from *The Seattle Times*, *The (Tacoma) News Tribune*, the *Tacoma Weekly*, the *Wenatchee World* and the (Longview) *Daily News*; and faculty and advisers from non-participating colleges—evaluated and scored the submissions, Finken said.

Career Days is Big

Attendees meet potential employers at the 2014 Career Days job fair.

Clark College's Career Days is entering its fifth year with its largest-ever number of employers participating in two separate job fairs, as well as many new events designed to help today's job-seekers. The three-day event will be held April 27-29 at the college's main campus.

The annual event includes seminars, skills sessions, clinics, speaker panels, and other events designed to assist students and community members in their job search efforts and to prepare students in transferring to a bachelor's degree. All events are free and open to the public.

Schedule highlights (full schedule available here):

Monday, April 27

- Presentation: "LinkedIn & the Online Job Search"
- Speakers panel: "Careers in Science, Technology,

Engineering, and Math”

- Career assessment workshop

Tuesday, April 28

- Drop-in resume and LinkedIn Clinic
- Employer panel: “Succeeding at Your Job”

Wednesday, April 29

- Job Fair with representative from 61 employers
- Separate Health Careers Job Fair with representatives from 20 employers
- Photo booth for a free professional headshot for attendees’ LinkedIn profiles
- “Borrow an Expert” event in which successful Clark College alumni can be reserved for 15-minute conversations about jobs in their respective fields.

“Clark College takes great pride in its role as a promoter of economic vitality in our region,” said Clark College Career Services Director Edie Blakley. “Eleven of the 12 Career Days 2015 events bring employers and professionals from outside the college to connect with our students and community members. This provides immediate opportunities for jobs, skill development, networking, and getting information that can help our graduates put their degrees to work.”

All events are free to students and members of the community. No registration is required. Clark College is located at 1933 Fort Vancouver Way, Vancouver. Driving directions and parking maps are available at www.clark.edu/maps.

Complete information about the event – including times and locations of the various events – is available at www.clark.edu/cc/careerdays or by calling 360-992-2902.

Information about Clark College Career Services is available at www.clark.edu/cc/careerservices.

Two Global Journeys Reach Success

Martin Parrao, *left*, and Lidiya Nikolayev, *right*, are Clark's 2015 representatives to the All-Washington Academic Team.

Two students whose stories began on almost opposite sides of the earth have found success in the face of adversity at Clark College. Martin Parrao and Lidiya Nikolayev represented Clark College at the 2015 All-Washington Academic Team Recognition Ceremony, held on March 26 at South Puget Sound Community College in Olympia, Washington.

About Lidiya Nikolayev

About Lidiya Nikolayev

Lidiya Nikolayev, 30, came to the United States with her parents from Moldova when she was almost 6 years old. From early on, she displayed a head for business. “When I was 12, I met a nice lady who’s a real estate agent, and she taught me to read contracts,” recalls Nikolayev, who speaks English, Turkish, Russian, and Hindi. “My family had a side business buying homes and fixing them up to resell, so I started helping with that.”

Small wonder, then, that Nikolayev is now pursuing a career in finance. But there is a more personal and painful reason for her interest as well. The truth is, she began to hone her financial acumen while caring for her son, Ivan, who was born with cerebral palsy. Faced with daunting medical bills and limited income, Nikolayev became expert at managing a budget. Ivan passed away in 2011; as Nikolayev recovered from her trauma, she became determined to go to college and find a career that would not only make her self-sufficient, but allow her to create family-friendly jobs for other parents. “No parent should have to sacrifice time with their children to have a career,” she says. “More companies in the corporate world should be creating work environments with flexible schedules that allow employees better balance between work and family responsibilities.”

Nikolayev enrolled at Clark in 2013, and quickly gained notice for both her aptitude and drive. She has just finished a quarter in which she took a staggering 22 credits, divided between classes at Clark College and at a community college in Texas, where she is enrolled in online courses. This is even more challenging than it sounds—because the Texas college is on a semester system and Clark uses a quarter system,

Nikolayev can be prepping for a midterm in one class while taking a final in another, and she rarely gets a vacation since one or the other of her schools is almost always in session while the other one is on break.

Nikolayev devised this strategy to facilitate a possible transfer to the University of Texas at Dallas, whose business program she admires. "For six months I bothered the heck out of both colleges' advising and credentials departments figuring it all out," she says with a laugh. The plan worked: Nikolayev has been accepted at UTD, as well as at multiple other universities, though she is still weighing her options before deciding on a transfer destination.

In addition to her turbo-powered studying, Nikolayev continues to help with her family's farm; serves as student representative on many of the college's administrative committees; and volunteers with both Phi Theta Kappa and the Association for India's Development. In 2014, she earned an OSWALD Award from Clark College Student Life for her volunteer activities. And she has maintained a high grade point average all the while. Her secret? Not a lot of sleep and a whole lot of personal organization, plus using the flexibility of online learning to do coursework when it fits her schedule.

Nikolayev says she learned her work ethic early on from her parents. In addition to farming and investing in real estate, her father does seasonal work at factories, while her mother worked 14-hour shifts as a housekeeper during Nikolayev's childhood—often taking night shifts so she could spend the days taking care of the children.

"I'm going to be the first person in my family to get a bachelor's degree," Nikolayev says. "I'll work as hard as it takes to get there."

About Martin Parrao

When Martin Parrao's family moved from Chile to the Pacific Northwest in 2006, Parrao was already 15 years old. He spoke no English. "The process of learning English has been one of the longest and most difficult challenges I have ever faced," he says. "Going through high school was very difficult for me, but I was determined to work extra-hard so that one day I could reach my goals and prove to my parents that their efforts to come to this country were not in vain."

That hard work paid off: Parrao went from taking English as a Second Language classes to graduating from Battle Ground High School with honors in 2009. He enrolled at a four-year university, but quickly encountered a new challenge. "I took one class, and it was super-expensive," he says. "I couldn't afford to keep going."

Parrao, 24, is a legal resident of this country, but he is not yet a citizen. This means that up until recently, he could qualify for in-state tuition, but not for federal or state financial aid. A 2014 Washington state law called the "Real HOPE Act" now allows students like Parrao to be eligible for state financial aid, but at the time, Parrao found himself facing thousands of dollars in tuition each quarter, even if he attended part-time, with no hope of assistance.

Parrao regrouped. He dropped out of university, realizing that his limited funds would go farther at Clark. Even so, he had to work for months to save enough money to take a single class, meaning that for his first three years at Clark, he could only afford to take one or two classes a year.

At the end of 2011, another challenge emerged: His family decided to return to Chile. Many young people might have taken that as a sign to give up, but Parrao became even more determined to pursue his dreams. "For me, just the sacrifice of having to learn a whole new language when I was 15, and working so hard to graduate high school with honors—to go back would mean all that effort was wasted," he says.

Parrao began applying for scholarships, working closely with Clark College Outreach/Scholarship Coordinator Lizette Drennan to identify opportunities. "Lizette was a great help," Parrao says. "Every time I had a question, she was there for me." The work paid off in 2013 when Parrao received a scholarship that allowed him to begin attending Clark part-time, followed by another that allowed him to become a full-time student.

At first, Parrao wanted to get a terminal two-year business degree; he assumed he wouldn't be able to afford more than two years of college. But as he continued to excel in his coursework (he currently holds a 3.96 grade point average) and as scholarships and the Real HOPE Act began to make attending college full-time affordable, he realized that he could do more. "I realized, 'This is the moment,'" says Parrao, who is engaged. "Because if you go out and work full-time and get married, you will not be able to do everything you can do right now."

Parrao chose to return to Clark to complete a transfer Associate of Arts degree. He plans to transfer in the fall to the Washington State University Vancouver, where he will pursue a bachelor's degree in Accounting. Meanwhile, he continues to work two jobs—as a computer lab aide in Clark College's Tech Hub, and as sales support for an industrial supplies company. He hopes to one day run his own business so he can provide jobs and scholarships to those who, like him, have more potential than resources.

Parrao says he greatly appreciates the opportunities provided to him by employers, friends, scholarship donors, and Clark College. "For my situation, this is probably the only way I could ever have done it," he says. "It made me realize how important it is to have opportunities for everyone. And that was given to me at Clark. It's changed my life."

About the All-Washington Academic Team

The All-Washington Academic Team is a program of Phi Theta Kappa, the honor society for two-year colleges. The team honors students who demonstrate a commitment to success in the classroom and service in their communities, and has become the showcase of the Washington community and technical college system. This year's team consists of 65 students representing all the state's 34 community and technical colleges.

Gov. Jay Inslee was on hand to acknowledge recipients at the 20th annual ceremony, hosted by South Puget Sound Community College in Olympia, Wash. Phi Theta Kappa, the Trustees Association of Community and Technical Colleges (TACTC), the Washington Association of Community and Technical Colleges, and the State Board for Community and Technical Colleges sponsor the event. All-Washington Academic Team members received scholarships from KeyBank and became eligible for scholarships from TACTC, the Washington State Employees Credit Union, and transfer scholarships from all four-year colleges and universities but one in Washington State.

Weaving a Stronger Safety Net

Clark College has received a major grant toward the college's efforts to help low-income students complete their education. Work is already underway on the three-year Working Families Success Network (WFSN) grant, which provides \$100,000 per year to hire staff and equip them to work with students.

WFSN is a program of Achieving the Dream, a partnership of seven nonprofit organizations that has grown to become the largest non-governmental reform movement working in higher education today. Achieving the Dream works at 200 higher education institutions in 34 states and the District of Columbia helping nearly 4 million college students realize greater economic opportunity.

Through the WFSN grant, Clark College will have an opportunity to provide more support to students in the areas of financial literacy, career services and gaining access to public benefits. "One of our goals is to remove the stigma and mystery surrounding some of the public benefits that students may be eligible for," Armetta Burney, Associate Director of Workforce Education Services, said. She explained that the grant allows the college to hire four part-time coaches to work one-on-one with students, helping them to access resources and manage their finances as they reach for their educational goals.

"We also have an effort underway to help faculty and staff

understand how to direct and encourage low-income students,” Burney added. “This is a large issue for the college as a whole, as 47 percent of Clark College students are classified as low-income.” Burney added that there are many ways for faculty and staff to encourage students, but one of the easiest is to share the website www.washingtonconnection.org, which helps students quickly and easily determine their eligibility for public benefits.

The grant parameters state a goal of reaching 25 percent of low-income students with both high- and low-touch services by the end of the three-year grant. High-touch services include one-on-one interactions like financial coaching, career coaching, or assistance with access to public benefits. Low-touch services include workshops, classes and general information on resources and services provided by the college.

“We know that far too many of our students are just one financial crisis away from dropping out of school, and that once they drop out it can be incredibly difficult for them to return,” said Edie Blakley, Director of Career Services. “With this grant, Clark College will be able to help more of these students weave a safety net for themselves that can allow them to stay focused on their long-term goals and create a plan for their financial wellness during and after college”
