

Women in STEM Tea

Clark College welcomes four alumni to speak at annual Women in STEM Tea event.

Senator Albert “Al” Bauer 1928-2021

Retired State Senator Albert “Al” Bauer ’55 in a photo taken on Clark College’s campus in 2008. *Photo: Clark College/Jenny Shadley*

Longtime State Legislator and Clark College alumnus Albert “Al” Bauer, whose work made a major impact on not just Clark College but on all of Washington State’s educational system, died today at the age of 92.

“Clark College has a heavy but grateful heart today as we mourn the passing of retired State Senator Al Bauer,” said Clark College President Karin Edwards. “We extend our deepest sympathies to his family. Penguin Nation has lost a great man who dedicated his life to supporting students and our community.”

During his time as a legislator, Bauer championed the cause of public education in Washington State. He conceived of the Running Start program, which allows eligible high school students to attend community college tuition-free. He is also largely credited with making possible the Vancouver location of Washington State University. Indeed, the building at Clark College where the first WSUV classes were taught—before the university’s permanent campus was built—now bears his name. Bauer Hall now houses many of Clark College’s math classrooms, as well as faculty and staff offices.

Yet the man who once was declared the “education senator” by Washington Gov. Gary Locke was himself a high school dropout. The son of a local dairy farmer, he planned to go into farming as well and thought he wouldn’t need an education.

But in 1948, after being laid off from his 80-cents-an-hour cannery job and earning the equivalent of a GED through a correspondence course, Bauer went to Clark College requesting admission as a freshman. He suspected he might be rejected. Instead, the office congratulated him on his effort, allowed him to enroll, and urged him to keep his grades up.

“That was the turning point in my whole life,” he said on the occasion of Clark College’s 75th anniversary. “I attribute whatever I’ve done to my family and to Clark College for encouraging me to keep going.”

Bauer attended Clark for two quarters before leaving to enlist in the U.S. Navy, where he served for six years. While in the Navy, he trained new recruits in navigation. This gave him his

first experience with teaching, and when he left the Navy in 1954, he re-enrolled at Clark with the idea of becoming a teacher.

Bauer always praised the education he received at Clark College. During the college's 75th anniversary, he spoke about Herman Foster, who taught German, among other subjects. "He would say, 'Albert, you probably ought to get a little tutoring,'" said Bauer. "Come in at 4 o'clock three nights a week and let's see if we can keep you on track.' He was just a dedicated academic."

After earning a bachelor's degree from Portland State University and a Master of Education from Oregon State University, Bauer took that example to heart during his own 20-year career teaching in area schools.

It was Bauer's teaching career that eventually led to his next career in politics. He became active in the teacher's union and was elected president of the Vancouver Education Association. In 1970, he was elected to the Washington State House of Representatives, where he served for nine years. By his second term, he chaired the Education Committee and began earning a reputation as a creative and committed champion of public education. In 1980, he left the House to run for State Senator, a position that he went on to hold for 20 years.

Bauer brought his experiences as both a student and a teacher to his legislative work around education. It was thinking about how to lower the state's high school drop-out rate, as well as the boredom he felt during his own high school years, that inspired him to propose the Running Start program.

Bauer never forgot his experiences at Clark College and was a staunch supporter of the college that gave him his educational start. He was a longtime donor to scholarships funded through Clark College Foundation. But he never meant or expected to have his name on a building. Bauer's late wife,

Pat, and fellow state Sen. Joe Tanner, sought—without Bauer's knowledge—to have a Clark building named for him. He later said he was shocked when he learned his name was emblazoned on Bauer Hall.

This article will be updated with details of his memorial service when they are available.

Making business ideas a reality

Alison Warlitner works to create a custom order for the business she and her husband created with support from Clark Entrepreneurs' Pitch Fest contest.

As the entry deadline approaches for Pitch Fest 2020 at Clark

College, last year's winners say participating in the *Shark Tank*-like competition sponsored by Clark Entrepreneurs made an enormous difference in moving their business to the next level.

Teams of Clark College students are invited to apply for an opportunity to pitch their entrepreneurial business ideas at Pitch Fest 2020. The competition is open to any Clark College students enrolled full time from fall 2019 through spring 2020 and who maintain a minimum 2.0 GPA. The deadline to apply is 8:00 p.m. on Friday, January 31. See details and apply online at clarkpitchfest.com/.

Last year, when Clark College students Alison Warlitner and her husband, Scott Warlitner, entered the 2019 Pitch Fest competition, they hoped to glean expert advice from the business-owner judges. The couple recently had begun making CBD-infused bath bombs in their home, marketing them under the business name Cherry River CBD. Ali and Scott advanced to the competition's final round of top three student businesses—and they won.

Scott and Alison Warlitner met actor Jim Belushi when they were a sponsor at the 2019 Portland Waterfront Blues Festival.

Fast-forward one year after its Pitch Fest success. Cherry

River CBD has tripled its gross sales, connected with capital investors, and hired their first employee, who markets their products at vendor trade shows. Emboldened by their Pitch Fest success, Ali pitched their business to a *Shark Tank* producer hearing pitches in Portland. Although they weren't invited to pitch on camera on the TV show, the experience pushed the Warlitners to keep going. Last summer they were invited to be a sponsor of Portland's Waterfront Blues Festival. Actor Jim Belushi, who owns a cannabis farm in southern Oregon's Rogue Valley, hung out in their booth.

Scott, a fine arts student at Clark, will graduate at the end of winter quarter. Ali, a Clark graduate, is pursuing an accounting degree at Washington State University Vancouver and plans to graduate in spring 2021. They live in The Dalles, Oregon, 90 miles from Vancouver. Four days a week, they drive to their classes—90 minutes, each way. Their sons, ages 3 and 5, attend the college's Child and Family Studies program.

The couple met when both were enlisted in the U.S. Navy in Virginia. After completing active-duty service, they moved to the Pacific Northwest, where Ali grew up. But one thing hampered their new life: Scott suffered from chronic pain due to injuries he sustained while in the military. Originally a nonbeliever in CBD, he was treating it with narcotics prescribed by the VA. But after Scott began taking CBD daily to relieve his pain, he realized the cannabinoids worked, and he stopped taking the narcotics.

This experience led the couple to begin thinking about creating their own CBD business. And, as luck would have it, this is when Ali walked by a poster advertising Pitch Fest outside her math class at Clark College. Enrolling in the contest forced the Warlitners to clearly articulate their business plan, refine their marketing materials, and answer tough questions posed by judges. It also provided them with mentorship from successful entrepreneurs that helped them take the next steps in their business.

“We’re absolutely a success story,” says Ali. “While we would have made those steps eventually, Pitch Fest is the reason we were able to move so quickly in establishing ourselves as a viable business. We wouldn’t be where we were today if not for the help we received from Pitch Fest, Clark College and the Clark Entrepreneurs.”

The Warlitners produce their CBD-infused bath, beauty and wellness products in their home. The hemp oil is grown on Ali’s cousin’s farm in Woodburn, Oregon.

Cherry River has been featured twice in *Broccoli*, a Portland-based magazine created by and for women who use cannabis. Ali has spoken on a couple of podcasts about being a veteran, a business owner, a full-time college student and a mother of young children.

“I’ve become a sought-after formulator in the cannabis world,” Ali says. “I like to bake. It’s just with different ingredients.”

So far, Ali and Scott have invested all profits back into their company. In 2020, they hope to start paying themselves a salary. They also are considering opening a production facility in Hawaii. Learn more at <https://www.cherryriver.net/>

About Pitch Fest

January 31 at 8 p.m.: Deadline for Clark College student teams to apply

February 21 from 9 a.m. to noon: Top 24 teams participate in Clark Entrepreneurs trade show at Gaiser Hall Student Center. The free event is open to the public. In the afternoon, the top 12 teams pitch their business ideas to the judges in a format similar to the TV show “Shark Tank.”

March 6 final round: Top 3 teams polish their pitches and

present to judges; closed to the public.

About Clark Entrepreneurs

Founded in 2016, Clark Entrepreneurs is a student program under the Associated Students of Clark College. The club welcomes any student interested in starting a business. Its purpose is to encourage and support students with their entrepreneurial ideas and expose them to the resources to help grow ideas, support real student business ventures, and scale businesses. Program Director is Nathan Webster. Student Rebekah Sharp-Regnier recently became marketing event director. Learn more at <https://clarkpitchfest.com/about-us/>

Read more about the Warlitners and other student veterans in Clark College Foundation's Partners magazine article.

Penguins hiring Penguins

It's become an annual tradition: hundreds of Clark College students showing up to meet potential employers as graduation looms near. But while Clark's Career Fair has become a familiar part of the academic cycle, not everyone realizes how many of those employer booths are staffed by former Clark students—some of whom attended the fair themselves, once upon a time.

Leslie Matheney, an HR generalist for Burgerville, remembered attending the fair before graduating from Clark in 2008 with her associate degree. "At the time, I wasn't really ready for it," she said, noting that she had just been looking for part-time work as she geared up to transfer to WSU Vancouver, where she earned a bachelor's degree in human resources and personal psychology.

Matheney, who was at the May 3 fair to recruit seasonal crew members and managers, said she felt being a Clark graduate helped her when she did start looking for full-time, permanent

employment. "I think, especially because I was looking for a position at a local company, it was good," she said. "I think that Clark is really well respected in this area."

Sgt. Fred Nieman stands with a colleague at the Clark County Sheriff's Office table.

Sergeant Fred Neiman, who was recruiting for the Clark County Sheriff's Office, said that his workplace also values the diversity of Clark's student body. "What we look for is folks who have a variety of education and background," he said. "You deal with all kinds of people in public safety. So to have a background of diverse education and experiences, and knowing how to interact with lots of different kinds of people—that's valuable."

Neiman has a long personal connection with Clark College. Not only did he attend classes here in the late 1970s, but he came back to work as its Director of Security for eight years. Clark is also where he met his wife, and their three children all earned associate degrees from the college.

"It's a wonderful institution," he said. "I enjoyed attending here when I was a student, and I enjoyed working here when I was an employee."

Vicky Barnes also has a child who graduated from Clark. She

earned her own associate degree here—with highest honors, no less—while he was still a teen.

Vicki Barnes

“I often got mistaken for a professor on campus,” laughed Barnes, who was at the fair to recruit for Woodland Public School, where she is the HR coordinator and district office manager. Barnes said she enjoyed her time as a Penguin, even though it meant long days—she attended Clark while working at WPS. “This is something I wanted to show my kids—that you can be a life-long learner.”

“It definitely benefited me in HR,” she said. “You learn how to engage with people, how to get out of your comfort zone.”

As if to prove this, she quickly turned to a woman eyeing her display of job descriptions to answer questions about open positions in the district.

According to Clark College Employer Relations Specialist Scott Clemans, 15 of the 110 employers who registered for this year’s fair indicated that they would have Clark College alumni present.

“Smart companies send alumni to events like these because they’re great role models and mentors for current Clark students,” Clemans said. “The alumni show current students what’s possible after college, and give great advice on how to

achieve it. And of course, they relate to Clark students on a level that other recruiters simply can't."

Clemans added that the fair was an impressive success. "Not only did we have 110 employers registered to attend—the maximum the O'Connell gym would hold—but we had to create a wait list for interested employers and probably had about 20 more who were interested but contacted us too late to register," he said.

This year's job fair included not only employer booths but also a photo booth where visitors could get a professional portrait taken for their LinkedIn accounts. Leading up to the fair, Clark College Career Services also hosted numerous workshops and events, as well as the annual Career Clothing Closet, to prepare students and guests for the day. The fair, which is open not just to Clark students but to all job-seekers in the community, saw 923 visitors this year—up 15 percent from last year's attendance.

Presidential Coins

Sen. Al Bauer receives a presidential coin from President Knight at the 2018 State of the College Address.

Clark College President Bob Knight presented Presidential Coins to two Clark College employees and one Clark College alumnus during his 2018 State of the College address on January 18. They were:

Rachele Bakic

Rachele Bakic

Rachele Bakic began at Clark in 2012 as the program manager for the Health e-Workforce Consortium Grant. She accepted the position of Interim Director of Academic Services in September 2014. In 2015, she was named the Associate Dean of Instructional Operations, a role that involves overseeing many aspects of the college's curriculum and programs. Knight said Bakic played "an integral role" on the college's Curriculum Committee, Instructional Planning Team, and the Outcomes Assessment Committee, all of which help realize the college's academic strategy and ensure that classes meet the needs of students. He also noted her work on the Academic Calendar Committee and other groups around campus.

Armetta Burney

Armetta Burney

Armetta Burney has served as Director of Workforce Education Services (previously called Eligibility Services) at Clark College for five years. In that role, she has led the expansion of several programs serving students. The Basic Food, Employment, and Training Program (which provides federal funding for students facing barriers to education) served fewer than 20 students per quarter when Burney began her career at Clark; now it serves more than 300. Similarly, she

expanded the Passport to College program, which provides incentives to students for reaching specific academic milestones. She oversaw changes to the way the Opportunity Grant was administered, which led to student retention rising from 76 percent to 84 percent. And she launched an Emergency Grant program for students in crisis.

"She is committed to ensuring that she and her staff meet students where they are, and providing students with the support they need to be successful," Knight said.

Sen. Al Bauer

While former Washington State Senator Al Bauer is not a Clark College employee, he has a long and personal connection to the college, beginning when he first began taking classes here in 1948 after being laid off from a cannery job. Bauer has said that he expected Clark to refuse to admit him, and that the college's wholehearted welcome helped him to believe in his own capabilities. Bauer left Clark to join the Navy, but returned after his service to continue his education. He eventually earned a master's degree in education and taught in area schools for more than 20 years. His political career included nine years as a Washington State Representative and two decades as a state senator, during which time he earned the moniker of "the education senator." A staunch advocate for the institution that gave him his start in higher education, Bauer's significance to the college was made clear in 1988 when a building on the main campus was dedicated to him.

"Thank you for being who you are, being the leader that you are, and for caring about students as the education senator," said President Knight in presenting the coin to Sen. Bauer.

President Knight introduced a Presidential Coins at Clark College in 2007. They are given to faculty and staff members who provide exemplary service to Clark students, the college, and the community. In 2016, President Knight expanded the

coins' recipients to include exemplary supporters of the college. The honorees are decided by the president and are kept secret until the names are announced—generally on Opening Day in the fall or during the annual State of the College address in January.

Outstanding Alumni announced

Six notable Clark College individuals have been selected for top Clark College alumni awards.

The 2017 Outstanding Alumni awardees are Nancy Boyce '08,

Mitchell Jackson '93, Debi Jenkins '93, Rujean "Jeanne" Mack '67, and Steve Morasch '87. The Rising Star awardee is Cody Messick '10.

Nancy Boyce is a diesel mechanic and owner of the heavy-machine repair business PowerTech Generation, based in Juneau, Alaska. In 2008, she became the first female Caterpillar field mechanic to work in Alaska. She has also taught diesel technology at the University of Alaska Southeast. The *Alaska Journal of Commerce* nominated her as its Top Forty Under 40 Award winner in 2017, and she was one of three finalists for the Association of Equipment Management Professionals Foundation's Technician of the Year Award in 2017.

Mitchell S. Jackson is the author of the award-winning novel *The Residue Years*, a creative nonfiction writing professor at New York University, and an adjunct instructor at Columbia University. His second novel, *Survival Math*, will be published in 2018. Jackson's honors include fellowships from TED, the Lannan Foundation, the BreadLoaf Conference, and the Center for Fiction. He's also a popular national speaker for youth and an advocate for criminal justice reform. Jackson, who grew up in Northeast Portland, presented at Clark's Columbia Writers Series earlier this year.

Debi Jenkins has more than 20 years of experience as a developmental life coach, teacher and presenter. Her expertise is in the areas of lifespan development, diversity, equity, inclusion and institutional climate/organizational change. Her business, Share the Flame Consulting LLC, provides a wide range of personal life- and career-coaching strategies. She is

a national speaker and author on equity practices, 2016 Oxford Round Table honoree, and 2009 YWCA Women of Achievement recipient. Jenkins is the division chair of Clark College's Behavioral Sciences department and has worked at the college for 25 years.

Rujean "Jeanne" Mack is a retired principal and executive director of Vancouver Schools. She is one of the creators of the innovative Help One Student to Succeed (HOSTS) Math Program, which was adopted by educational systems around the country. Mack is also the first executive director of the Vancouver Schools Foundation, where she grew the endowment to \$1 million; the former director of Children's Therapy at the nonprofit Innovative Services NW; and the former director of Youth House, a youth empowerment center developed by the Clark County Department of Community Services.

Steve Morasch is a land-use, real estate, and litigation attorney at Landerholm. He has received awards from the *Wall Street Journal*, *American Jurisprudence*, and *Vancouver Business Journal*. He's the chair of Clark County Planning Commission and has the highest peer-reviewed attorney rating—AV Preeminent. Morasch was part of the Clark Alumni Association Board from 2004 to 2007, and the Alumni Scholarship Endowment

Committee from 2005 to 2006.

Cody Messick is a doctoral student in physics at Pennsylvania State University and was part of the team that detected the presence of gravitational waves at the Laser Interferometer Gravitational-Wave Observatory (LIGO) in Washington state and Louisiana in 2015. He is a current executive committee student member of the American Physical Society's Division of Gravitational Physics. He was a math tutor at Clark, a Physics Days host at University of Washington, and a gravitational wave summer camp organizer at Pennsylvania State University.

Outstanding Alumni Award recipients are chosen for their exemplary service to the community and Clark College, and for personal and professional achievements. The Rising Star Award recognizes alumni who are aged 35 or younger; who deliver exemplary service to the community and to Clark College; and exhibit personal and professional achievements.

The group will be recognized during a luncheon reception on November 1 and at Clark College Foundation's annual donor gala, Savoring Excellence, on November 2. The reception is a collaboration with the alumni association, Clark College, and Clark College Foundation.

A champ returns

Award-winning author Mitchell S. Jackson began his college career at Clark. *Photo: Charlotte M. Wales*

During the 2017 winter quarter installment of its renowned Columbia Writers Series, Clark College will welcome back former student Mitchell S. Jackson, an award-winning author. Mitchell will read from and discuss his writing from 11:00 a.m. to 12:00 p.m. on Tuesday, January 17, in room PUB 258 on Clark's main campus.

"I'm excited about Mitchell's reading because I think it will be a great opportunity for Clark students to hear from someone who grew up in the area and attended Clark," says English instructor Alexis Nelson, who co-directs the Columbia Writers Series. "I also think *The Residue Years* suits the college theme of Transformation, in addition to being a unique and

powerful read.”

Raised in Portland, Mitchell Jackson is the author of *The Residue Years*, a novel that Mitchell has said includes many autobiographical elements. The award-winning book centers on the relationship between Champ, a young African-American man struggling to balance his ambitions with his circumstances, and his mother Grace, recently released from rehab.

Jackson began his college career at Clark in 1993, where he played basketball under then-coach David Waldow. “My time at Clark was formative,” says Jackson. “It taught me that I would have to work hard to achieve my goals, that I’d have to take responsibility for my decisions. Coach Waldow was tough on me, but he was also a figure I needed at that point in my life.”

Jackson transferred to another college after one year at Clark, eventually earning an M.A. in writing from Portland State University and an M.F.A in Creative Writing from New York University. He currently resides in New York, and serves on the faculty of both New York University and Columbia University.

The Residue Years has earned significant accolades since its release in 2013. It was praised by publications including *The New York Times*, *The Paris Review*, and *The Times of London*. Jackson is the winner of a Whiting Award. His novel also won The Ernest J. Gaines Prize for Literary Excellence and was a finalist for the Center for Fiction’s Flaherty-Dunn First novel prize, the PEN/ Hemingway award for first fiction, and the Hurston / Wright Legacy Award. Jackson’s honors include fellowships from TED, the Lannan Foundation, the BreadLoaf Conference, and the Center for Fiction. It was also the 2015 Everybody Reads selection of the Multnomah County Library. *The New York Times* said in its review of the book, “Jackson’s prose has a spoken-word cadence, the language flying off the page with percussive energy ... there is a warmth and a hard-won wisdom about the intersection of race and poverty in America.”

The event is free and open to the public. Directions and maps are available online. Individuals who need accommodation due to a disability in order to fully participate in this event should contact Clark College's Disability Support Services (DSS) Office at 360-992-2314 or 360-991-0901 (VP). The DSS office is located in room 013 in Clark's Penguin Union Building.

The Columbia Writers Series was launched at Clark College in 1988, bringing local, national and international authors to the college and the region. Information about the Columbia Writers Series is available at www.clark.edu/cc/cws.

Penguin flies high among Cougars

Clark alumnus and

employee Narek
Daniyelyan was
named to the WSU
Board of
Regents. *Photo

Clark College alumnus and employee Narek Daniyelyan has been appointed by Governor Jay Inslee as the student member of the Washington State University Board of Regents for the 2016-2017 academic year.

"I am excited to have Daniyelyan as our student representative on the regents," said WSU President Kirk Schulz. "He has an impressive background and will bring a strong student voice to board deliberations. I look forward to working closely with Daniyelyan during my first year as WSU President"

Daniyelyan has a long history of service to institutions of higher learning. During his time at Clark, he was a Student Ambassador, helping to guide new students around the college and supporting Clark events. He graduated from Clark with his Associate of Arts transfer degree from Clark in 2009, but soon returned to the college to work as a recruitment specialist. He currently works in the college's Office of Instruction as its Education Partnership Manager, engaging with local schools, businesses and other higher education institutions to create and maintain mutually beneficial student partnership agreements. His other past work includes serving as a recreation leader for the City of Vancouver and as an intern with the Clark County Juvenile Court system.

Daniyelyan continued his education after Clark, graduating from WSU Vancouver in 2012 with a bachelor's degree in Human Development. In 2013 he began his master's degree studies in public affairs at WSUV.

"Upon graduation, I plan to continue working in higher

education and serving students in our community,” said Daniyelyan. “Education has given me an opportunity for social mobility, so I want to help others see their potential and become the best versions of themselves.”

“I am ecstatic to be serving as the Student Regent and am looking forward to representing all WSU students,” Daniyelyan said of his appointment. “During my time as student regent I hope to learn about some of the amazing things that past Student Regents have accomplished, work with current board members on some of the pressing initiatives for the year, and serve as a liaison between students and the board.”

Daniyelyan was elected vice president of the Associated Students of WSU Vancouver and has held a variety of other student leadership positions, including serving as a student ambassador and as director of Leadership Development for ASWSU-Vancouver.

Effective July 1, Daniyelyan’s appointment will run through June 30, 2017. He succeeds current Student Regent Jansen VanderMeulen, of Burlington, Wash.

This article adapted from the Washington State University news site.

Penguins Enter Hall of Fame

On Saturday, February 28, the Penguin Athletic Club, in conjunction with the Athletics Department at Clark College, will hold the annual Clark College Athletic Hall of Fame banquet and induction ceremony at 5 p.m. in the Penguin Union Building. The banquet and ceremony will take place after the women's and men's basketball games that day, which start at 1 p.m. and 3 p.m. respectively. The inductees will be honored during halftime of the men's game.

This year's honorees include:

Lisa Boe (Women's Basketball) helped lead her team to 55 wins during her two seasons at Clark College. In 1989 the Penguins won the NWAACC (now NWAC) Championship; in 1990, they finished second. Boe was First Team All-NWAACC both years and MVP of the league one year. She was selected to the All-Tournament team both years, and was MVP of tourney one year. Boe, who went on to play at the University of Central Missouri, and is currently a Portland police officer.

Coach George Fullerton (Track & Field) coached Track at Clark for 24 years (1958-1989), guiding his student athletes to the 1960 NWAACC Track & Field Championship, as well as numerous

regional championships during the course of his career. Fullerton lives in Vancouver.

Denny Huston received his Associate of Arts degree from Clark, where he was student athlete (1959-1961), coach (1965-1969), and Athletic Director (2008-2011). He also coached basketball at Camas High School and had many coaching stints at the college level from 1963 to 1992.

The **1989 Women's Basketball Team** won Clark's first NWACC basketball championship, finishing the season 27-6. (*pictured at top*)

For more information on this event, please access the Hall of Fame link at <http://www.clarkpenguins.com/hof.aspx>. Individuals can also register online by February 21 at www.cvent.com/d/krq8gg. Tickets are \$25.00 per person.

If you need accommodation due to a disability in order to fully participate in this event, you should contact Clark College's Disability Support Services Office at 360-992-2314 or 360-991-0901 (VP), or visit Penguin Union Building room 013 as soon as possible.

After Haiyan

Enrico "Rico" Selga is a well-known figure to many at Clark College. Either they recognize him from his time as a nursing student here during the 1990s, or they saw him receive the Clark College Foundation's Outstanding Alumni Award in 2010, or they've ordered a latte from him at one of the two coffee kiosks he and his wife, Jennifer, run on Clark's main campus.

However, not everyone knows what he does with his “off” hours: For years, Selga has volunteered with the church-based nonprofit Medical Teams International in areas stricken by disaster or conflict. He’s done so much of this work that MTI now sends him as a “First in Team” member, tasked with scouting the area and organizing resources before the rest of the medical team arrives. When the Philippines were hit by Super Typhoon Haiyan on November 8, 2013—demolishing buildings and killing thousands of people—Selga, who is originally from the Philippines, was one of the first volunteers to land in the hard-hit town of Guiuan. We wrote about Selga’s trip to treat earthquake victims in Haiti in a previous issue of Clark 24/7; here, Selga describes his latest experience in his own words.

Looking from the small window of the Australian Air Force C-130 airplane one week after Super Typhoon Haiyan, the community of Guiuan looked like it had been bombed. Houses were flattened; trees were uprooted or snapped in half. Once I was on the ground, I could also see that all the vehicles were damaged and that the people were wet and dirty. Locals told me that some people had resorted to eating dogs for food, while others had looted stores for food or items to trade for food. Survivors created shelters from scraps of wood or tin. Others used tarpaulins or plastic bags. During the nights, the wind would blow so hard that the rain went sideways. It was impossible to stay dry, and the combination of wetness, hunger, and thirst made it close to impossible to sleep.

Guiuan residents line up to use the phone.

Under normal conditions, Guiuan is a tropical paradise, filled with picturesque white sand beaches perfect for surfing and diving. But Haiyan left nothing standing. Houses were demolished beyond repair. Hotels and resorts were reduced to sticks and rubble. Wells that normally provide safe drinking water were contaminated. Fallen trees and power lines made the streets unpassable by car.

The children walked around the community with their parents, checking on their neighbors. I could hear the children telling their parents that they were hungry and thirsty. I tried my best to hold back my tears because I too have a child. I knew that children ages 6 months to 2 years would be particularly vulnerable because there was no milk or safe water to drink. Inevitably, many of them would get sick or die from the conditions. I cannot imagine how helpless their parents must feel. I know that if the roles were reversed, I too would be looting and stealing.

Yet these same people who looted were the first ones to share their food. Food rations were scarce, but people still shared them with their neighbors. Despite the catastrophe people found ways to smile and laugh. It was beautiful to observe the

people banding together to help each other. And then one of them helped me.

On my first day in Guiuan, I met Klaus Engesvoll, the man who became my savior and best friend. I was sitting on the bench at Viva grocery, which had become the relief center of the town. There was a long line outside the looted grocery for the only functional satellite phone available to call the outside world. People were given 60 seconds to talk to someone. Each person was given three chances to dial a phone number. If nobody answered on the other side, the person lost his turn. The free telephone service was available from 7 a.m. to 7 p.m., but lines started forming at 5 a.m. and the last calls were made after 9 p.m. Listening to the conversations was heart-breaking. One woman narrated the story of how she lost her husband and children. Another woman kept on repeating, "Food is so hard." For 60 seconds all she could muster up to say was, "Food is so hard." It was painful to hear their 60-second stories of tragedy, but the ability to share their stories gave them hope that soon help would arrive. The last caller of the day was Klaus. He called his sister in Norway. After his call, he invited me and my colleague to stay in his house.

Klaus Engesvoll and Rico Selga

Klaus came to the Philippines from Norway on a vacation many years ago. He never left. Eventually, he married Amy, with whom he has two children who speak four languages fluently. Klaus told me how his family and 60 other people were saved by hiding in the laundry room and garage of his house. He said that if the wind had blown for another hour, they too might not have survived—and that when they came out after the storm had passed, they did not know if anyone else had.

The day after the storm, Amy cooked all their food and shared it with their neighbors, a move typical of her and Klaus's generosity. After knowing me for only a day, Klaus invited me to stay in his house, where he and his family shared their scant amount of relief goods, water, and food with me. This was uncomfortable for me because I was supposed to be there providing help to them. In the end, our team would not have been able to function without his hospitality and willingness

to share everything with us.

Klaus and I spent 24 hours a day together, brainstorming and helping the people of Guiuan. We would go to bed at midnight and stare at the ceiling, waiting for daylight so we could start working again. I would get up from my cot at 5:30 in the morning to go to his room, where I would see him crammed in his bed with Amy and their children—his eyes open. He would turn to me, nod, and get up without waking his family.

Around us, everything was sopping wet. In the living room at least six of his neighbors slept on wet sofas. Some nights, there were three inches of water all over the house. His stairs looked like a waterfall with the rain coming down hard from the second floor, where the roof had been torn off by the storm. Debris filled his house. Mud and grass peppered the walls and ceiling.

The first priority of each day was to find water, food, medications, and gasoline. Without gas, we could not send Doctor Alan out to see the patients. Without water and food, we were finished. In a disaster-hit community it is difficult to find the most basic necessities. Klaus and I had to go around town scavenging from other international aid agencies and the local market. We also needed to find a tarpaulin to cover Klaus's blown-off roof—with more volunteers arriving soon, we needed a place for them to stay.

Once, we spent the whole day just begging for one liter of gas—and got none. We spent countless hours networking at United Nations Office for the Coordination of Humanitarian Affairs (OCHA) to procure gas and diesel. The diesel was important to keep our van moving. The van was by no means comfortable—it was missing a windshield and the engine had issues—but it was moving. I borrowed it from a neighbor on a handshake promise to pay him at a later date. This neighbor had three vans that at one point became shelter for 23 people.

Dr. Alan, *far right yellow shirt.*

On that same day, the first baby was born in a tent hospital run by Medecins Sans Frontieres (MSF). The crowd in the OCHA meeting clapped in jubilation. We had also scored enough tarpaulin to cover our house and one clinic. The tarpaulin was a gift from International Organization for Migration (IOM) and MSF. On this same day we also received a water filter from Guiuan Disaster Relief Coordination (GDRC). We could now filter enough water for 100 people daily for five years. It was a happy day for the community and for our organization. Klaus and I celebrated with a drink of rum, but neither Klaus nor I slept well because we both knew there was more work to be done.

The next day the carpenters worked at a feverish pace to finish putting tarpaulin on Klaus's house. It was a dangerous job because the tarpaulin was slippery and any mistake would send them falling from a two-story house. Meanwhile, thanks to neighbors, the inside of his house was miraculously cleaned of wood, metal, and glass debris in five days.

There were other signs of hope that day—and new challenges. For the first week after the storm, there was no food for sale in the market. Almost two weeks later, on the Thursday that

Klaus's house got covered, the markets began selling more varied food again. Disappointingly, the prices for that food skyrocketed as more international aid workers (aka "rich foreigners") arrived. The day before, we had bought a kilo of potatoes for \$1.50; now a kilo cost \$3.50. This is an unintended side effect of the arrival of the relief agencies, one felt most keenly by the locals. The average salary of an unskilled laborer is about \$5 per day. I paid the men fixing the roof about \$5 per day. I paid the foreman about \$9 per day. These people cannot afford a 300-percent increase in food costs.

By Friday morning, we had welcomed 12 volunteer doctors, nurses, and paramedics. We were in full capacity to treat patients. Doctor Alan now had a complete team with him when he went out to the villages. Our team immediately went to work treating patients in Guiuan, Mercedes, and Salcedo. In one day, we were able to see more than 200 patients and provided them with essential medications.

My job with the 'First In Team' was finished. We had shelter, food, water, volunteers and clinics. This was good news, but my heart sank because it also meant that soon I would be sent back home. Klaus felt it too. He kept saying, "It will be strange without you, Rico." For nearly two weeks, I had spent my days and nights with Klaus. He had an uncanny ability to make friends and get things done. I admired his strength and perseverance, growing to love him like a brother. I knew that he would give his life for me—as I would for him.

Before departing I asked Klaus, "What are you going to do after all of this is done?" He told me that he was not leaving, that Guiuan is forever his home. But then he added, "I do not know, Rico. For the first time in my life, I care only about others. I do not care what happens to me. I have never felt this way before. I will only leave if my children cannot go to school. If the schools are not rebuilt, I must

return to Norway for my children." I could see in his eyes that he is deeply worried. I felt guilty for leaving him and going home.

I believe in the power of dreams. It will triumph over adversity. Dreams have the power to transform despair into hope. Dreams keep us taking the next step forward. Dreams turn the impossible into reality. Today I dream of rebuilding a school. I have never rebuilt a school. This is a dream I cannot accomplish without help. I need a small miracle. Twenty-three years after evacuating my home in a US Air Force C-130 plane due to an earthquake, and after 13 years of volunteering in disaster-stricken and war-torn areas like Kosovo, Liberia, Uganda, and Haiti, I am needed now in the land of my bones, Philippines.
