Clark College officials gathered at the site of the future Clark College at Boschma Farms campus to commemorate the project’s “first dig.”

Artists Selected for Boschma Farms

Clark College, in partnership with the Washington State Arts Commission, has selected an artist for the Advanced Manufacturing Building for its Boschma Farms campus in Ridgefield, Washington.

State of the College points toward “True North”

President Knight takes a moment to joke with the crowd during his 2017 State of the College address.

At his annual State of the College address on January 20, President Bob Knight spoke about the importance of an organization finding its “true north,” which he defined as “the very reason the organization exists, and what it can do better than anything else.”

Knight went on to say that Clark College has been steering its course toward its own true north, which he said was encapsulated in its mission statement: “Clark College, in service to the community, guides individuals to achieve their educational and professional goals.”

“There are two absolutely key words in this statement: ‘community’ and ‘guides,’” he said.

President Knight with students, *left to right*, David Malagon-Lopez, National Anthem singer Cori Weaver, ASCC Finance Director Bill Skates, and ASCC Executive Assistant Jennette Kachmar.

Knight pointed out several ways the college is helping to better guide students, including work on implementing a “Guided Pathways” model of education that helps channel students into well-planned routes to their degrees; new enrollment labs and Penguin Welcome Days to help students be prepared for college before they even begin classes; and the expansion of the COLL 101 class to all incoming students planning to earn an Associate of Arts degree. He reminded the audience gathered in Gaiser Student Center that almost three-quarters of Clark’s student body were first-generation college students.

“They need that structure,” he said. “They need that extra help and support.”

Knight also highlighted some of the ways the college is working with its community. He mentioned the strong

relationship Clark's Automotive Technology program has developed with local businesses like Dick Hannah Dealerships, who recently donated \$4,000 tool kits to students working there. And he gestured to the temporary wall on one side of the student center, blocking off construction of the Tod and Maxine Culinary Institute, which, when completed later this year, would be the only nonprofit culinary institute within 120 miles.

Knight pointed out that the culinary institute, as well as Clark's newly opened STEM Building, would not have been possible without generous support from the Clark College Foundation, which for the first time this past year surpassed \$1 million in scholarship donation. When the state did not fully fund the STEM Building's construction, Knight said, "our Foundation came to the rescue through our community and raised the money to build that facility. Not every college in this state has that luxury."

Continuing the theme of community, Knight discussed the important role Clark College at Boschma Farms would play in the under-served northern portion of the college's service district. While the land for this new facility in Ridgefield has been acquired, funding for the design phase has not been included in Governor Jay Inslee's proposed budget for the next biennium. "This project is a cornerstone in what Ridgefield Mayor Ron Onslow like to remind me is the state's fastest-growing city," Knight said.

Stacy Watne holds her
Presidential Coin.

As is traditional, Knight used the address as an opportunity to hand out Presidential Coins to individuals who provide exemplary service to Clark students, the college, and community. New this year, Knight bestowed two coins on individuals who are not employees at the college—alumnus George Welsh '67 and professor emeritus Dr. Larry Easter—as well as to two employees, custodian Stacy Watne and Disability Support Services Program Support Supervisor Irene Cheney.

Knight concluded by saying that while he realized that the U.S. Presidential Inauguration was also happening that day, he would not be commenting on it except to say, “Whatever goes on nationally won’t affect what happens at Clark College. Clark College will remain an open, safe, inclusive environment.”

Expanding Our Future

President Knight welcomes guests to his 2015 State of the College Address.

“Over the past year, we have seen many successes and we have seen many things that seemed like a dream or a far-off vision come to fruition.” So began President Bob Knight’s 2015 State of the College Address, held January 15 in Gaiser Student Center, in a speech full of hope and celebration.

As President Knight pointed out, there was much to celebrate: the successful completion of the Clark College Foundation’s capital campaign, the beginning of the long-delayed construction of a new STEM building, the introduction of the college’s first-ever bachelor’s degree, the acquisition of

land for a new North County campus, the expansion of services in the Columbia Gorge, and much more.

Left to right, Clark College Foundation CEO and President Lisa Gibert, Bernice and Hank Boschma, and Clark College President Bob Knight at the 2015 State of the College Address.

Regarding the North County campus, Knight noted that Hank and Bernice Boschma were sitting in the audience and thanked them publicly for the donation of land that made the North Campus location possible. Knight also announced that there would be a public monument on the new campus that told the story of the Boschma Family, who moved to Ridgefield from the Netherlands and began a successful dairy farm.

“As we look to North County we are inspired by what the Boschma family created and we are looking for the next opportunities that will allow people to live, be successful, and contribute to the community of Southwest Washington,” he said. “That is why we are looking at Clark College at Boschma Farms as a possible center for advanced manufacturing and medical programs.”

Knight also took the opportunity to unveil the final draft of the college’s 2015-2020 Strategic Plan, which is undergoing a

final round of public feedback before being presented to the college's Board of Trustees for approval. "A key change from our old Strategic Plan is that we don't just want to be a place that welcomes students in," he explained. "We want to be a learning college where people come and complete their educational goals."

President Knight thanks 99-year old professor emeritus and WWII veteran John Deurwaarder for his service to the college and the country.

As is his tradition during the State of the College, Knight also awarded Presidential Coins to exceptional staff and faculty members in honor of their service. Early during his address, he also presented a coin to Professor Emeritus John Deurwaarder, who celebrates his 100th birthday in May.

At the end of his address, President Knight urged guests to make sure others know about the future plans and current accomplishments at the college. "You're here because you care about Clark College and you care about our community," he said. "You need to help tell the story about this wonderful asset in our community."

A Bright Evening for Clark College Foundation

Clark College student Petya Grozeva sings "At Last" to start the evening's performances.

A multimillion-dollar gift of land, a matching grant for STEM, and a prestigious Presidential Award bestowed to a regional trust—these were all on the menu this year at Savoring Excellence, Clark College's annual donor appreciation dinner and program.

President Robert K. Knight announced a \$3.1 million gift of

land from the Boschma family as the location of Clark's next satellite campus during the May 21 event. When combined with private and state funding, the transaction consists of a \$5.67 million land purchase by Clark College Foundation. The new campus will be located in Ridgefield, Wash., on 59.24 acres.

Knight said that future students and the North County community will reap the greatest benefits of the Boschma family gift.

"For our students, the door of opportunity and access will be opened wider. For the city of Ridgefield, this announcement is monumental," he said. "Once built, the North County campus will be known as Clark College at Boschma Farms."

Lisa Gibert, president and CEO of Clark College Foundation, who was instrumental in securing the gift and brokering the land purchase, said the gift sets the tone for the future of North County.

"This type of partnership demonstrates the overwhelming generosity that people of Southwest Washington have for Clark. Making education more accessible for people in the region means greater prosperity for the residents and a brighter economic future," she said.

Meyer Memorial Trust

Clark College student Saeed Nasser sings "Bawadaak"

In addition to the land gift news, Gibert announced that Clark College Foundation received a \$400,000 matching grant from Meyer Memorial Trust to outfit the college's upcoming science technology engineering and mathematics (STEM) building with equipment and furnishings.

Economists predict that there will be 18,700 STEM jobs in Clark, Cowlitz and Wahkiakum counties by the year 2021. To meet the demand, Clark is poised to be a regional leader in STEM education and job training. The college will break ground on a new public/private-financed STEM building this summer. The more than 70,000 square-foot facility will house many of Clark's STEM programs at its campus on Fort Vancouver Way. When completed in 2016, the center will serve in partnership with industry and other educational institutions to foster exploration, interactive learning and innovative teaching techniques for women and men.

Meyer Memorial Trust, funded through the estate of Fred G. Meyer, founder of the Fred Meyer supermarket chain, invests in people, ideas and efforts that deliver significant social benefit to Oregon and Clark County, Wash., through inspiring, innovating, partnering and leading to improve the quality of life in those regions.

Community Foundation for Southwest Washington

Also during the Savoring Excellence celebration, Gibert noted that a \$25,000 grant from the Community Foundation for Southwest Washington was awarded to Clark to benefit the college's Pathways program. The grant will assist in helping break cycles of poverty through access to education, literacy training, mentoring and career services.

Murdock Charitable Trust

Clark College student Chris Crosland plays "Tears of the East"

Sandwiched between song and musical instrument performances by Clark students, Gibert presented her Presidential Award for Excellence during the event. M.J. Murdock Charitable Trust, which provided \$250,000 to Clark College in 2013 for new dental equipment, received the accolade. The money purchased modern technology to ensure student access to current advances in the industry and meet federal privacy regulations.

"The grant allows Clark's nationally recognized Dental Hygiene program to meet rapidly changing technology advancements in the profession. Students must be trained in the use of modern tools in order for them to secure jobs. M.J. Murdock Charitable Trust is also directly affecting the wellness of residents in Southwest Washington because Clark students care for hundreds of underserved patients each year," said Gibert.

The Firstenburg Family Dental Hygiene Education & Care Center opened earlier this year after undergoing renovations, adding paperless charting software and updating its digital radiography area. The M.J. Murdock Charitable Trust grant enabled the college to purchase instructional cameras, workstation computers, radiology computers, patient privacy materials and vacuum systems.

Savoring Excellence is a yearly event presented by the Clark College Foundation to honor major contributors to the programs

and students of Clark College.

Clark College receives \$730K land gift

Clark College has received a second land gift in as many weeks—for a total of more than \$3.85 million in gifts—which when combined with private and state funding, will be the location for a future Clark campus in Ridgefield, Wash.

A \$731,549 gift of land from Ridgefield East 1 Associates, LLC in addition to a May announcement of a \$3.12 million land gift from the Boschma family, will have a long-lasting effect for the region, including expanding access to education.

Lisa Gibert, president/CEO of Clark College Foundation, who was instrumental in securing both gifts and brokering the land purchases, praised the Ridgefield East gift as the ideal location for an entrance to Clark's upcoming campus. "These 10 acres will be the gateway to Clark College at Boschma Farms," she said. "In the years to come, we will work with the city of Ridgefield to encourage retailers such as eateries and coffee houses to open shops, making it an attractive entryway for a vibrant new campus."

Clark College will benefit by the acquisition of the new property through the combined generosity of Ridgefield East 1 Associates, LLC, the Boschma family and the charitable support of Clark County residents, Clark College alumni, philanthropic supporters, trusts and foundations.

The Ridgefield East transaction consists of a \$1.99 million purchase price by the Clark College Foundation, accompanied by a \$731,549 land donation—providing a total of 10.28 acres for the future expansion of Clark College. Once built, the North County campus will be known as Clark College at Boschma Farms.

The land is adjacent to the 59.24 acres that was partially gifted from the Boschma Family, LLC and purchased by Clark College Foundation in May. The Ridgefield East property is located on the east side of N. 65th Avenue. It is east of Interstate 5 and Pioneer Street. The address is 264 N. 65th Avenue, Ridgefield, Wash.

The gifts and acquisitions represent a long-term visionary chapter for the growth anticipated at Clark College. The college's 2007 Facilities Master Plan identified North County as an area where the college could fulfill its mission of providing access to an underserved area of the service district. The Washington Legislature approved the project concept in 2009.

Recently, the Washington State Board of Community and Technical Colleges prioritized building projects for the upcoming biennium. Though no money has been allocated yet, funding for design and building has received a green light.

The population in the area has continued to expand. Clark College believes that once facilities and programs are available on a North County campus, students from the northern region of Clark and South region of Cowlitz counties will utilize this location for their educational needs and career advancement.
