

Under the Caps

Jaime Taylor and Susan Baker

Susan Baker and Jaime Taylor had to arrive at the Sleep Country Amphitheater before 6 p.m. to get their spots near the head of the line of graduates waiting for the Clark College commencement ceremony's 7 p.m. start. But for both women, the wait for this moment was much longer than an hour.

"I started this journey in 1995," said Baker, who works as a teacher in the college's Child & Family Studies department. "And then I had children, and I had to put things on hold for a while, but now here I am!"

Taylor—who, like Baker, was graduating with honors with an Associate of Applied Science degree in Early Childhood Education (ECE)—told a similar story. "It was kind of my time," she explained about her choice to enroll at Clark,

where she worked in Baker's classroom as part of her studies. "My kids had gone to school and it was time for me to do something for myself."

Judith Gomez

All along the line, there were tales of dreams deferred. Judith Gomez—also among the ECE contingent at the head of the line—first began taking classes in Clark's non-credit English as a Second Language program 16 years ago, soon after she moved to Vancouver from her native Mexico. At the time, she spoke no English, but she was determined to go to college. She had to drop out twice when she had children, but eventually she was able to improve her English skills to the point that she could take for-credit classes.

"English isn't my first language, so for me, doing papers was double the work," she said, beaming under her blue mortarboard cap, from which dangled the golden tassel and insignia of Phi Theta Kappa, the honor society for two-year colleges. "But I was determined, and my teachers were amazing, so supportive."

Gomez, who also works in Child & Family Studies as an early-intervention specialist, said she hoped her children—ages 19, 14, and 10—would follow in her footsteps to pursue college educations. “In ECE, we call it ‘modeling,’” she said. “You model the right behavior, and the children see it and learn. My children are so excited already. They’re all talking about going to college.”

Kevin Ross was also hoping to be a role model. “I am the first one from my whole family to graduate from college,” he said as he waited to receive his Associate in Applied Technology degree in Supervisory Management. “We’re talking parents, grandparents, brothers, sisters, aunts, uncles, cousins. It feels good—it feels *great*. It gives my family members something to see. ... I have a little brother. I want to set an example for him, to show him that you can succeed, no matter where you come from or what’s happened in your life.”

Juliab Dutkel, Carlos Cervantes, Gregory Michael, and Kevin Ross

For Ross, life has not always been peaceful. He first started thinking about attending Clark when he was incarcerated at Larch Corrections Center. He got to know Clark College President Bob Knight, who regularly visits the center to play

basketball with inmates. “As I approached my time to come out [of Larch], Bob started asking me, ‘What are you going to do next? You should come to Clark,’” Ross recalled. “So I went to Clark. It’s offered me an alternate route toward success.”

Ross said he plans to transfer to WSU Vancouver to pursue a bachelor’s degree in business. He will not be the first former inmate to do so—in fact, Clark College has long run an educational program within Larch, and on the Friday following commencement, a ceremony within the correctional facility’s walls would celebrate the 34 inmates who earned their High School Equivalencies during this academic year.

Standing next to Kevin Ross was Carlos Cervantes, whose cap sat atop a long mane of curly gray hair. Cervantes came to Clark when the housing-market crash put an end to his career as a Realtor. He was graduating with a degree in Paralegal, despite having suffered financial hardships after losing his job.

“I was really struggling, but I got scholarships,” Cervantes said. “The Clark College Foundation made my education possible.”

Katie Brilz and Lacey Mac-Rhyann

For other graduates, this commencement wasn’t a dream

deferred—rather, it was a dream accelerated. Lacey Mac-Rhyann had decorated her cap with the slogan “17 with my AST.” Mac-Rhyann was one of the 235 graduates who participated in Running Start, a Washington State program that allows students to take college classes while still enrolled in high school. “It was the most phenomenal thing,” she said of the program. “It didn’t just give me college credit—it gave me college experience.”

Ana Lai, who had decorated her cap with pictures of scientific equipment and the logo of University of Washington, also appreciated being part of Running Start. “It gave me a head start,” said the Ft. Vancouver High student, who plans to become a mechanical engineer. “I did the calculus and physics sequences, and I loved it.”

Ana Lai

Alecsander Thompson, who attended Evergreen High School, said he appreciated the serious atmosphere he experienced at Clark through Running Start. “In high school, you don’t pay to get an education,” he said. “In college, people are there because they want to learn.”

Thompson was standing next to his friend Mark Hamilton, also a Running Start student from Evergreen, and who like Thompson

plans on transferring to Portland State University's criminal justice program. Another thing the two young men had in common was that they originally chose Running Start in part because Clark's schedule offered them the flexibility to work full-time while attending school.

"You kind of cut out sleeping after a while," laughed Hamilton.

Timothy Witcher, Alecsander Thompson, Mark Hamilton, and English instructor Kate Scrivener.

As the bagpipes began to sound, the graduates quickly adjusted caps and gowns in preparation for their procession. This was the moment that would make all of it—the sleeplessness, the studying, the doubts and fears—worthwhile. Near the front of the line, Susan Baker got ready to complete the journey she'd begun almost 20 years earlier.

"You know, when you're a mom, you spend so much time telling your kids that you're proud of them," she said. "It's pretty cool to be hearing my kids tell me they're proud of me."

Student Leader Profiles: Pathways Peer Mentors

Pathways Peer Mentors, *left to right*, Julie Mercado, Mark Damian, Alana Leon-Guerrero, Jamie Brindley-Bagent, Chantear Song, and Seunghyun Roh

Students who enroll in Basic Education at Clark College often find themselves facing a host of challenges.

What kind of challenges? “Oh my gosh, there are so many!” exclaims Pathways Peer Mentor Jamie Brindley-Bagent. “Everyone

has different stories: if you don't have money, if you don't have parents to help you, if you don't have a place to stay, if you think of yourself as dumb."

Thankfully, students enrolled in Clark's Adult Basic Education—as well as its English as a Second Language and IBEST programs—can turn to their Pathways Peer Mentors (PPMs) for support and advice when the road gets rough. PPMs are fellow students who have successfully transitioned from ABE, GED, and/or ESL programs to college-credit academic classes at Clark—or who are first-generation college students. Their unique experience gives them insight into the challenges faced by their peers, allowing them to provide necessary support, guidance and encouragement to help those peers stay in school and achieve their long-term educational goals.

This year's Pathways Peer Mentors are:

Jamie Brindley-Bagent, 19, grew up in Vancouver. She is studying criminal psychology and hopes to earn her master's degree in this field, eventually becoming a detective. "I know it's really hard to go to college and I want to show people that they can do it," she says.

Mark Damian, 17, grew up in St. Petersburg, Russia. He is pursuing an associate transfer degree, with the goal of becoming an engineer. A Running Start student, he enjoys working as a Peer Mentor because "there's a lot of opportunity to make new friends."

Alana Leon-Guerrero, 21, is originally from the island of Saipan in the Northern Mariana Islands. Currently studying for her Associate of Arts degree, she plans to transfer to Washington State University Vancouver after graduating from Clark. "I decided to become a Pathways Peer Mentor because I want to help people and let them know that there are a lot of resources on campus."

Julie Mercado, 21, began at Clark taking ESL classes; she

currently is enrolled in the I-BEST Academic program, which allows students to enroll in academic classes while simultaneously receiving Adult Basic Education assistance within the class. A native of Guadalajara, Mexico, she came to the United States at age 18. "Now that I am a Pathways Peer Mentor, I get the satisfaction of seeing how we help people," says the aspiring elementary teacher.

Seunghyun Roh is from South Korea, where he learned to enjoy helping students during his time as an English tutor. Now studying at Clark through International Programs, he decided to become a Peer Mentor because he "wanted to have more experience with people from other countries." He hopes to become an engineer.

Chantear Song, 26, grew up in Washington state. She is studying elementary education. "My goal for the future is to be a bright, influential teacher for students," she says, adding that she chose to become a Pathways Peer Mentor to "challenge myself, get out of my comfort zone, and help people."

This year, the PPMs have begun using a new tool in their work: bright-orange "Look for the Good and Praise It!" appreciation note cards. These notes offer students, staff, and others a vehicle for offering thanks and encouragement. "It's one thing to talk about the power of appreciation; it's another thing to experience its uplifting, invigorating impact," says Marilyn Sprague, PPM Program Coordinator. "With the appreciation note cards, PPM mentors have a simple, easy-to-use tool guaranteed to build ABE/ESL students' confidence."

The notecards are available in the Pathways Center (TBG 229).

Moving Toward Their Future

As soon as President Bob Knight concluded his annual State of the College address, many audience members grabbed their coats and hurried out of Gaiser Student Center—not because they were eager to leave, but because they wanted to see the new location of Adult Basic Education/English as a Second Language. These programs, which were housed at Town Plaza for five years, moved to the Roy and Virginia Anderson Educational Complex (better known as the “T Building”) at the end of 2012.

The new facilities have many advantages over the old Town Plaza location: more windows, better temperature regulation, updated classroom technology. But perhaps the biggest improvement is the location itself, just across Fort Vancouver Way from Clark College’s main campus. This allows students

easy access to college services like the Career Center and Cannell Library, as well as the chance to participate in student life.

“Students from Day One are operating as college students,” said Director of Basic Education Larry Ruddell as he greeted visitors to his program’s open house.

Workforce Pathways Program Manager Tiffany Williams pointed out that it wasn’t just students who benefited from access to the main campus; she and her colleagues were now able to easily take advantage of staff- and faculty-development events that previously required a car trip for Town Plaza employees.

Williams was giving tours of the new Pathways Learning Center, which was markedly different from its form at Town Plaza. There, 15 computers were arranged at tables facing the walls, making it difficult to do group teaching about computer

skills; now, 24 computer stations are arranged at rows of desks in a traditional classroom layout, with a space for an instructor and a pull-down screen at the front of a room filled with natural light. This has allowed staff and faculty to begin teaching classes on everything from computer-based job searches to introductory web design.

“We’ve already started serving more students,” said Williams. “At our old location, we would average five to seven students at our classes; just this week, we had 14. When we get here in the morning to open the door, there are already students waiting to get in.”

Nearly 1,400 students took basic education classes at Clark College during the 2012 fall quarter alone.

Ruddell said that students have adjusted well to the move,

with few having trouble finding their way to the new location. "We prepared them so thoroughly that on the first day of [winter quarter] classes, we were getting more lost students from the main campus than we were from our own student population," he said.
