

2024 Employee Awards

Clark College employees were honored September 16 at the annual Opening Day event.

Opening Day: Award Recipients

Clark College employees gathered on September 18 to kick off the 2023-24 academic year during Opening Day festivities at O'Connell Sports Center. During the event, the following staff members were recognized for their service to the college.

Opening Day 2022

Clark College starts the new academic year with its first in-person Opening Day since 2019.

President Edwards said that although she has been at Clark College for over 2 years, this was the first in-person opening day celebration, and she was loving it!

Celebrating the Class of 2022

Clark College honored its 86th graduating class at the 2022 Clark College Commencement ceremony held Thursday evening,

June 16, at the RV Inn Style Resorts Amphitheater. The college conferred over 1,900 degrees and certificates for the next generation of our community's workers, leaders, and scholars.

Exceptional Faculty Awards

Professor Michelle Mallory is all smiles before Clark College's 2021 Commencement ceremony. *Photo: Clark College/Tarek Kanso*

Six outstanding members of Clark College's faculty have been recognized for their contributions to the college with a 2021 Clark College Exceptional Faculty Award.

These awards are presented annually to full-time and part-time faculty members. Nominations can be submitted by Clark College students, faculty, classified employees, administrators, alumni, Board members, and Foundation directors.

Traditionally, they are announced during Commencement. This year, Commencement was held on June 17 on Christensen Soccer Field.

The awards are made possible through an endowed trust fund established by the Washington State Legislature and the Clark College Exceptional Faculty Endowment Fund, which was established in 1993. That fund provides recognition of exemplary work performance, positive impact on students, professional commitment, and other contributions to the college.

Below are this year's Exceptional Faculty members, along with quotes from their nominators:

Kayoko Barnhill, mathematics

"I have been taking Math for Elementary Education courses, and her course is very tailored not just to learning the materials, but learning how to teach each others in class. I have struggled with math my whole life, and her course gave me confidence that not only could I learn it, but I could gain deeper understanding and effectively teach it."

Tony Chennault, biology

"He believed in me when I didn't believe in myself. He encouraged me to keep going, he told me I could do it when I didn't think I could do it myself. He teaches in a way that you understand, even if it's not your strongest subject. He is so inspiring, motivating, and encouraging."

Nami Inoue, Japanese

"When I first began at Clark College, I had a very negative outlook on school based on my previous high school experiences. I decided to take some classes for fun and try

out a college environment. Inoue Sensei's passion for teaching and love for her students was so warm compared to any teacher I've had before. She helped me rediscover the love I have for learning and school."

Michelle Mallory, early childhood education

"To know Michelle is to love Michelle! She is a fierce defender of the learner and believes strongly in meeting the learner where they are at and with respect, dignity and recognition of the learner's culture and style of learning."

Joshua Patrick, English

"Professor Patrick has taught me that I should never be ashamed to voice my opinion. He made me feel smart, validated, and taught me how to communicate my thoughts and opinions to others in an effective way to make them listen. He also engraved some very useful critical-thinking skills into my brain that I think will be very helpful throughout the rest of my college experience—but most importantly, I'll be able to apply these skills to my daily life."

Kristi Taylor, dental hygiene

"Kristi has been incredibly supportive in a time of great financial uncertainty and worked on behalf of all her students to help us figure out a plan, or make contact with those who could offer us answers and help. She worked to provide all of us with an avenue for covid vaccination if we desired it. She works tirelessly on our behalf and still manages to answer emails in less than an hour. She's basically Wonder Woman!"

Professor Kristi Taylor, *top row second from left*, stands with faculty, staff and graduates from the Dental Hygiene program at Clark College's 2021 Commencement. *Photo: Clark College/Tarek Kanso*

Exceptional Faculty Awards

The 2020 Exceptional Faculty Award recipients are, *clockwise from top left*, Dr. Don Appert, Adam Coleman, Molly Lampros, Ken Luchini, Tom Stevenson, and Lauren Zavrel.

Six outstanding members of Clark College's faculty have been recognized for their contributions to the college with a 2020 Clark College Exceptional Faculty Award.

These awards are presented annually to full-time and part-time faculty members. Nominations can be submitted by Clark College students, faculty, classified employees, administrators, alumni, Board members, and Foundation directors. Traditionally, they are announced during Commencement; because this year's ceremony was online and abbreviated due to the COVID-19 outbreak, they were announced at a later date.

The awards are made possible through an endowed trust fund established by the Washington State Legislature and the Clark College Exceptional Faculty Endowment Fund, which was established in 1993. That fund provides recognition of exemplary work performance, positive impact on students, professional commitment, and other contributions to the

college.

This year's Exceptional Faculty members are:

- Dr. Don Appert
- Adam Coleman
- Molly Lampros
- Ken Luchini
- Thomas Stevenson
- Lauren Zavrel

Dr. Don Appert, professor of music

Dr. Don Appert

Dr. Don Appert just celebrated his 30th anniversary of teaching music at Clark College. The director of the Clark College Orchestra and head of the Music Department, Appert has earned many awards over his career, including the prestigious American Prize, the ASCAP Plus, and the Clark County Arts Commission Lifetime Achievement in the Arts Award.

“He doesn’t just ‘talk the talk,’” wrote one student in nominating Appert. “He truly embodies everything he teaches his students, from being punctual for class to practicing his instrument every day. He puts his students before himself and goes out of his way to create the best learning experience. He expects a lot from his students, but expects even more from himself.”

Appert earned his bachelor's and master's degrees in music, specializing in trombone, from the New England Conservatory. He earned his doctorate in orchestral conducting from the University of Kansas. In addition to his 30 years at Clark College, he has teaching experience at Centre College in Kentucky and at Hampton University in Virginia. As a member of ASCAP, most of Dr. Appert's compositions have been performed throughout the world. He has appeared as a guest conductor in Japan, Australia, Central America, and throughout Europe. In the United States, he has appeared as a guest conductor of the Vancouver (Washington) Symphony, the University of Texas – Arlington Symphony Orchestra, the Eastern Washington University Symphony Orchestra, and the University of Central Arkansas Symphony.

Adam Coleman, professor of computer technology

Adam Coleman

Adam Coleman's connection to Clark College goes back to his own student years, when he earned his associate degree with a double major in Data Networking and Computer Networking from the college. He then went on to get his bachelor's degree in Computer Technology at Eastern Washington University. He worked at SEH-America before returning to Clark College to teach, and in 2014 was named a tenured member of the college's computer technology faculty.

Coleman has been active in serving on college committees and creating partnerships with local organizations geared toward helping people build careers. He was central in developing and implementing new courses designed to help students earn their Microsoft Technology Associate certification. An avid bike rider, Coleman represented the college in the American Diabetes Association's annual Tour de Cure for years.

"Professor Coleman has been there for me since the beginning of my degree," wrote one student in nominating Coleman. "He has always been attentive. He will sit down with me and work through questions or concerns. He pushes on. He keeps going no matter what."

Molly Lampros, professor of communication studies

Molly Lampros

Molly Lampros joined Clark College's communication studies faculty in 2010, and over the past decade she has taught classes including Introduction to Mass Media, Interpersonal Communications, and Small Group Communications. She has also given her energy and expertise to enrich the college beyond her classes, serving as a Phi Theta Kappa faculty advisor, giving presentations to colleagues on how to support students in the classroom, serving on scholarship and awards committees, and serving as a faculty mentor for student

interns. Additionally, she has worked to create an Open Educational Resource for her classes—essentially, a free textbook that reduces expenses for her students. She is also certified in eLearning and Quality Matters.

“She’s fun, upbeat and always brings such a positive energy into class,” wrote one student in a nomination for Lampros. “She knows how to engage a class and make people want to participate, and she makes everyone feel included and heard. She makes you excited to come to class.”

Lampros earned her Bachelor of Arts degree in communication studies and psychology and her Master of Science degree in communication studies and conflict resolution from Portland State University. She earned her Master of Arts in Teaching in English language education from Pacific University. In addition to her decade of teaching at Clark College, she has teaching experience at Portland State University and the Oregon Institute of Technology. She also gets to put her communications expertise to work in a practical environment as co-owner of the Helvetia Tavern in Hillsboro, Oregon.

Ken Luchini, professor of mechatronics

Ken Luchini

Kenneth Luchini earned his associate degree in industrial electronics from Diablo Valley College in California. He

earned his Bachelor of Science degree in industrial electronics and computer technology from California State University Chico, and completed Master Studies in instructional processes in vocational education at the University of California Berkeley Extension. His work experience includes more than two decades as an electrical engineer, as well as 10 years as an electronics technician and eight years as a full-time college vocational education instructor in electronics and industrial automation.

Luchini earned tenure at Clark College in 2016. At the college, he serves as the faculty advisor for the MechaNerds, a student club devoted to mechatronics. He was also co-principal investigator for the Clark College Rural Access Mechatronics Program (RAMP), a program that developed “hybrid” (combination online and face-to-face) curriculum to serve rural portions of the college’s service district through a grant from the National Science Foundation’s Advanced Technological Education program.

“The amount of one-on-one time he provides is amazing,” wrote a student. “While he is inexhaustible in the classroom, that is not where his day ends. He’s always available after hours for discussion/clarification, and prides himself on getting you the right (or best!) answer.”

Thomas Stevenson, professor of communication studies

Tom Stevenson

Thomas Stevenson has taught in the Communication Studies department of Clark College since 2010, teaching classes that include Interpersonal Communication, Small Group Communication, and Public Speaking. Before he began teaching, he had a long career as a newspaper reporter and editor.

A graduate of Portland State University, Stevenson earned a Bachelor's Degree in Community Development (with additional focus on Communication Studies) and a Master's Degree in Communication Studies (with additional focus on Conflict Resolution), both with honors. In addition to his decade at Clark, he has teaching experience at Portland State University, Portland Community College, and Chemeketa Community College.

"I became a much better communicator after I attended both Interpersonal Communication and Small Group Communication classes from Tom," wrote one student in nomination Stevenson. "His enthusiasm and compassion have a huge impact on students. I am grateful for the conflict-resolving skills I've gained to deal when I work in a group and use these skills in my family. Using perception-checking has helped me understand how to solve misunderstandings and conflicts."

Lauren Zavrel, professor of adult basic education at Larch Corrections Center

Lauren Zavrel

While academia is full of highly specialized fields, Lauren Zavrel has built a career path that might be considered unusual even by the standards of higher education: For the past decade, she has taught in correctional facilities. She has served on the faculty of Clark College's Adult Basic Education program at Larch Corrections Center since 2016, earning praise from her students for her inclusive, supportive teaching style.

"Ms. Z treats us as students first, not inmates," wrote one student in their nomination. "She works with you on an individual level. She has a lot of respect for cultural differences and is aware of how cultural differences might play out in the classroom. She is accepting of all backgrounds. She actively recruits and hires Teacher Assistants from different backgrounds so that her students see themselves reflected in teacher's assistants."

Zavrel first discovered a love of teaching as a motorcycle safety instructor and began her academic teaching career in English as a Second Language. She earned her Bachelor of Arts degree in Romance languages and her Graduate Certificate in

nonprofit management from the University of Oregon and her Master of Education degree in adult and higher education from Oregon State University. In addition to her time at Clark, she has teaching experience with Lane Community College, Lane County Adult Corrections, Clackamas Community College, Clackamas County Jail, the American Red Cross, and Team Oregon Motorcycle Safety Program. At Larch, Zavrel helped develop the first-ever tutoring program in a correctional facility to be certified by the College Reading and Learning Association. She also saw a record number of inmates earn their GEDs in the 2019-2020 academic year.

Exceptional Faculty

The 2018-2019 Exceptional Faculty Award recipients are, *clockwise from top left*, Dr. Karl Bailey, Nadine Fattaleh,

Deena Godwin, Erin Staples, Malcolm McCay, and Zachary Grant. During the 2019 Commencement ceremony, President Robert K. Knight announced the names of the recipients of the 2019 Clark College Exceptional Faculty Awards. The awards are presented annually to full-time and part-time faculty members. Nominations can be submitted by Clark College students, faculty, classified employees, administrators, alumni, Board members, and Foundation directors.

The awards are made possible through an endowed trust fund established by the Washington State Legislature and the Clark College Exceptional Faculty Endowment Fund, which was established in 1993. That fund provides recognition of exemplary work performance, positive impact on students, professional commitment, and other contributions to the college.

This year's Exceptional Faculty members are:

Dr. Karl Bailey, Chemistry

Dr. Karl Bailey

Dr. Karl Bailey has taught chemistry at Clark College for the past 13 years. He served as chair of the chemistry department from 2012 to 2016 and has had a key leadership role in the college's implementation of the Guided Pathways model of higher education, which works to eliminate "achievement gaps" between different populations of students.

Dr. Bailey holds a bachelor's degree in biochemistry from

California Polytechnic State University and a doctorate in chemistry from the University of California, Davis. In addition to his tenure at Clark, he has taught at Everett Community College and the Florida Institute of Technology, as well as at both his alma maters.

“Dr. B continuously shows that he supports his students and will do anything to help them succeed,” wrote one student. “He has offered to help outside of office hours. ... I’m a single mom fighting to succeed, and he has been there during two quarters, doing everything he can to accommodate any hardships, within reason. Teachers like him leave marks on your academic heart.”

Nadine Fattaleh, Chemistry

Nadine Fattaleh

Nadine Fattaleh has taught chemistry at Clark College since 2002 and currently serves at the head of the chemistry department. She earned her bachelor’s degree in chemistry from Scripps College in Claremont, California, and her master’s degree in chemistry from Carnegie Mellon University in Pittsburgh, Pennsylvania.

Fattaleh is a member of the leadership team of the Pacific Northwest Green Chemistry Network. At Clark College, her primary teaching responsibilities are in general and organic chemistry, where she has implemented green chemistry lab experiments.

“Having taken a year of college-level chemistry before, I walked into Nadine’s class nervous because the classes I had taken in the past made no sense to me or anyone else in the class,” wrote one student in their nomination. “It turns out, though, that some educators can teach these complex concepts in a way that actually makes sense to students. Nadine sets us up for successful careers in science.”

This is Fattaleh’s second time earning the Exceptional Faculty Award, which she also won in 2010.

Deena Godwin, Communication Studies

Deena Godwin

Deena Godwin has taught communications courses at Clark College since 2001. She currently serves as chair of the communications and humanities division, and served as interim dean of the college’s BEECH (Basic Education, English, Communication and Humanities) unit for two years. Over her time at Clark, she has contributed to the college community in many ways, including as advisor for the Phi Theta Kappa honor society, chair of the Associate of Arts Advisory Committee, and facilitator for many Teaching and Learning Center workshops providing professional development to Clark College employees.

Godwin earned her Bachelor of Arts degree in organizational communication from Dana College in Nebraska and her Master of Science degree in communication studies and journalism from

South Dakota State University.

One student wrote in her nomination that Godwin helped her not only during class, but also after the class was over by writing her a letter of recommendation. “She not only wrote me a personalized letter, but she filled out recommender forms for five colleges for me—all of which I got into,” she wrote.

Zachary Grant, Libraries

Zachary Grant

Zachary Grant’s career at Clark College Libraries began in 2005, when he interned at Cannell Library as part of his coursework to complete his master’s degree in library science from Emporia State University. He was hired into a tenure-track position at the college in 2006.

At Clark, Grant serves on the Emergency Management Planning Committee and has been active in the college’s work toward implementing the Guided Pathways model of higher education, which is focused on eliminating the “achievement gap” between different populations of students. He earned his Bachelor of Arts degree in history from Oregon State University.

Grant earns praise from colleagues for his patience and care when helping students find reliable sources for their research projects. One faculty member wrote in a nomination, “He is so concerned that the library be equally accessible to all that he began studying American Sign Language in order to be able to better communicate with Deaf students.”

Malcolm McCay, Economics

Malcolm McCay

Malcolm McCay did not come to teaching until after a 20-plus year career spent working in the energy and public-utility fields, primarily providing policy and legislative analysis. In 2007, he retired from Portland General Electric, where he had served as a federal policy specialist. In 2010, he began volunteering as a tutor at Clark College, where his skill and depth of knowledge led to an offer to teach classes.

McCay earned his bachelor's degree in economics from Humboldt State University in Arcata, California, and his master's degree, also in economics, from the University of California, Santa Barbara.

One student wrote in their nomination that McCay "makes everyone feel important," adding, "His teaching style really makes you start looking at the world and the history of the world in a different light. He brings to the subject a lot of examples of the effects of economics on our world and community."

Erin Staples, Health and Physical Education

Erin Staples

Erin Staples has taught health and physical education classes at Clark College since 2009. She has been active at Clark as a faculty academic advisor, a faculty advisor to a student club, and participant in the Curriculum and eLearning committees. She also volunteers with the YWCA SafeChoice Domestic Violence Program.

Staples earned her Bachelor of Science degree in hospitality management from the University of North Texas and her Master of Public Health in health education/healthy promotion from Portland State University. Additionally, in 2018 she earned a graduate certificate in diversity, social justice, and inclusion, which she used to revise the curriculum for a new Multicultural Health course, as well as her existing Women's Health course.

It was taking that latter class that prompted many students to nominate Staples for this award. One wrote, "Erin is absolutely amazing! She does a wonderful job at making every student feel comfortable in her class without judgment." Another wrote, "This instructor has taught me more about myself and helped guide me toward a better understanding of the world than any other previous instructor."

Photos: Clark College/Jenny Shadley

Exceptional faculty

The 2018 Exceptional Faculty Award recipients are: computer technology instructor Bruce Elgort; English as a Second Language professor Sara Gallow; music professor Richard Inouye; mathematics professor Dr. Kanchan Mathur; and addiction counselor education instructor Don Wissusik.

During the 2018 Commencement ceremony, President Robert K. Knight announced the names of the recipients of the 2018 Clark College Exceptional Faculty Awards. The awards are presented annually to full-time and part-time faculty members. Nominations can be submitted by Clark College students, faculty, classified employees, administrators, alumni, Board members, and Foundation directors.

The awards are made possible through an endowed trust fund established by the Washington State Legislature and the Clark College Exceptional Faculty Endowment Fund, which was established in 1993. That fund provides recognition of exemplary work performance, positive impact on students, professional commitment, and other contributions to the college.

This year's Exceptional Faculty members are:

- Bruce Elgort, computer technology instructor
- Sara Gallow, English as a Second Language professor
- Richard Inouye, music professor
- Dr. Kanchan Mathur, mathematics professor
- Don Wissusik, addiction counselor education instructor

Bruce Elgort

If there is one word to describe computer technology instructor Bruce Elgort, it is probably “connected.” He stays connected to his students through email, social media, and online tools. “Never in the history of teaching has a professor been more available to his students,” raved one student in their nomination.

Elgort is also connected to local industry through his long career in tech, which includes high-level positions at major companies like Sharp and Underwriters Laboratories, as well as launching his own successful software company. And he creates connections in his community, regularly attending (and sometimes speaking at) conferences and inviting others to come with him. “I can’t count the number of events I’ve attended because Bruce posted something on Slack or Facebook—or gave me a digital nudge saying, ‘You should go to this!’” wrote another student.

Small wonder, then, that Elgort has gathered a significant fan base at Clark since beginning to teach here in 2012. Indeed,

this is his second time winning an Exceptional Faculty Award at the college; the first time was in 2013. Elgort says that, since then, he's become involved in numerous Clark committees and initiatives. In other words, he's become more, well, *connected* to Clark—and clearly Clark is all the stronger for it.

Sara Gallow

When Sara Gallow began her teaching career, she imagined it would be a way to travel the globe. But one day, while teaching English in Japan, she read a newspaper article about a program in the U.S. teaching English to immigrants and refugees; instantly, she realized that was what she wanted to do. Within a year, she was living in Portland and teaching ESL (English as a Second Language) at area colleges, including Clark.

Clearly, it was the right fit: Gallow was hired full-time in 1999 and has been here ever since. Currently, she serves as chair of the Transitional Studies division and has been described as the division's "consistency, vision, driving force, and backbone." Under her leadership, Transitional Studies has redesigned all of its ESL and basic education courses, as well as developed a new program serving inmates in the Clark County Jail.

Throughout her career, however, Gallow's first love remains teaching. "My students teach me strength, persistence, and humility," she says. "I've had doctors, lawyers, teachers, engineers, and musicians in my classes. I've had students who weren't able to finish elementary school and others who have escaped war. All of them came to this country for a better life, and for one quarter they trusted me to teach them English and help them reach their goals—it's truly an honor to be their teacher."

Richard Inouye

It's hard to imagine Clark College's exemplary concert band and jazz ensemble without their fearless band leader, music professor Richard Inouye. Since 2007, Inouye, who is retiring this June, has not only led the band but also raised its musical reputation in order to recruit top notch student musicians to attend Clark. Additionally, he has directed Clark's annual Jazz Festival, which has grown to attract more than 50 middle and high school bands from around the region.

Inouye has a long professional career in music, beginning with teaching band in Colorado public schools and followed by a 20-year career in the United States Air Force Academy Band as a saxophonist, music director, and band leader. He also served on the music performance faculty at The Colorado College for eight years before moving to Vancouver to begin teaching at Clark.

"Although Rich can come across as stern and direct, he's also got a soft heart, often coaching and mentoring students on his own time and with his own resources," wrote one nominator. "He believes in giving students second chances, within parameters designed to help them become successful."

"He wants us all to be responsible, of course, but he will lend a hand whenever needed," wrote one student. "He continues to push us to be the best we can be—in band and outside of band."

Dr. Kanchan Mathur

“I enjoy everything about math,” says mathematics professor Dr. Kanchan Mathur. “The clarity of thought it brings, the seemingly unrelated quantities that come together in a beautiful formula, the numerous applications of it, the elegant proofs of theorems, the history behind some of the most important developments—and, well, numbers in general.”

Dr. Mathur is all too aware, however, that not all her students feel the same way. “Math should not be intimidating, but it is, sadly,” she says. A tenured professor at Clark since 2008, she helps students overcome their math hurdles by making herself available outside of the classroom for one-on-one help with tricky concepts—and with other challenges they face.

“In addition to her dedication to our students’ academic success, she also genuinely care about their well-being,” wrote one nominator, point out that Dr. Mathur stocks a variety of snacks in the Mathematics Department office for hungry students.

In addition to her teaching duties, Dr. Mathur has served as the Mathematics Department’s scheduler. She also works with local schools to hold several math competitions and to get young students excited about mathematics and higher education. And she’s teamed up with other math faculty on many of the department’s math-themed events, like its annual Pi Day celebration and its “Read a Math Book to your Child” campaign on Bring Your Child to Work Day.

Donald Wissusik

For almost two decades, Donald Wissusik has made the long commute to Vancouver from Newberg, Oregon, to teach evening classes to students in Clark's Addiction Counselor Education (ACED) program. That he has done so on top of his full-time job as a clinical services manager in addiction medicine for Kaiser Permanente speaks to his dedication to teaching.

"The wisdom from his many years of experience, along with his gentle and kind demeanor, makes him very approachable and makes us students feel valued," wrote one nominator. "Don has made a huge impact on me, and I will carry his words of wisdom with me into my professional career."

Wissusik's own career is coming to a close, as he is retiring from Clark this year. (He retired from Kaiser in 2016.) But his legacy will continue at Clark through his many years as a volunteer on the ACED's advisory committee, which helps ensure the program's outcomes match employers' needs.

"I am very honored and amazed to receive this award," Wissusik says. "I have tried to be guided by being mindful of how I wanted to be mentored when I started this career over 40 years ago."

Photos: Clark College/Jenny Shadley

Outstanding employees

Stage Manager Mark Owsley steps out from behind the scenes to accept a service award at Opening Day.

Opening Day on Sept. 12 marked several celebrations of employee contributions to the college. Employees were recognized for 5, 10, 15, 20, 25, and 30 years of service to the college. Three employees—Facilities Services Maintenance Mechanic Daniel Simonson, Engineering professor Christina Barsotti, and Mathematics professor Tracy Nehnevaj—earned recognition for 25 years of service to the college, while Stage Manager Mark Owsley stepped out from behind the backdrop

to accept a plaque for 30 years of service. And, in a surprise gesture, Board of Trustees chair Jada Rupley presented President Bob Knight with a Clark basketball jersey commemorating his 10th anniversary as college president.

President Knight holds a basketball jersey given to mark his 10th anniversary as college president.

“Currently the average tenure of a community college president is three and a half years,” noted Rupley. “We’re lucky to have someone who’s remained dedicated to our college for 10 years.”

Additionally, the recipients of the annual Exceptional Faculty Awards and quarterly Classified Staff Excellence Awards were recognized. The faculty awards are announced at Commencement and the quarterly Classified staff awards are announced each quarter. Additionally, two Classified Excellence Award nominees were announced to be recipients of the annual Exceptional Classified Staff Awards: Aleksandr Anisimov and Tia Schmidt.

Five Clark College employees received Presidential Coins during Opening Day. Introduced in 2007 by President Bob Knight, the coin is given to faculty and staff members who provide exemplary service to Clark students, the college and the community. The honorees are decided by the president and are kept secret until the names are announced—generally on

Opening Day in the fall or during the annual State of the College address in January. The newest coin recipients are:

Sean Janson

Sean Janson started at Clark as an assistant men's soccer coach in 2007. He became head coach of the women's soccer team in 2014, and has led the Penguins to be one of the most dominant forces in their league. In 2017, they won the Northwest Athletic Conference South Region Title for the first time in college history. Additionally, the team held a 2.94 cumulative GPA, and eight out of nine sophomores on the team signed letters of intent at four-year institutions.

Roberta Roche, who has worked at Clark for more than 40 years, accepts a Presidential Coin at the 2017 Opening Day employee recognition.

Roberta Roche

Roberta Roche first joined Clark in 1973 as a part-time Clerk-Typist. She has served in several positions and departments over her four decades at Clark; currently, she is a Program Specialist 2 in the Office of Financial Aid, where she serves as the central point of contact for outside agencies who

provide funding for students. During the 2016-2017 year, she processed more than \$1.2 million in outside agency funding. Knight remarked, "One outside agency representative recently commented that he has worked with numerous colleges, and the support and direction that she provided far outweighed any other help that he had received."

Sherry Smith

Sherry Smith serves as the STEM Administrative Services Manager. She was commended for her role in moving departments into the new STEM Building with few problems. "She works quietly but she is very effective in supporting the STEM unit," said Knight.

Toccara Stark

Toccara Stark has served as Director of Marketing at Clark since August 2015 and, Knight said, "It is hard to think of anyone who has had such a great effect in such a short amount of time." Stark has led the college's rebranding effort and has been instrumental in many college initiatives. She also works regularly with Clark College Foundation and community stakeholders on behalf of the college.

Kristy Taylor

Faculty member Kristy Taylor was recently named the director of Clark's Dental Hygiene program after serving as interim director for two years. She oversaw the program's recent and successful accreditation review. Taylor also serves on several college committees, including Academic Planning. Knight called her "a strong advocate for Clark students."

Read more about Opening Day on our news site.

Exceptional faculty

During the 2017 Commencement ceremony, President Robert K. Knight announced the names of the recipients of the 2017 Clark College Exceptional Faculty Awards. The awards are presented annually to full-time and part-time faculty members. Nominations can be submitted by Clark College students, faculty, classified employees, administrators, alumni, Board members, and Foundation directors.

The awards are made possible through an endowed trust fund established by the Washington State Legislature and the Clark College Exceptional Faculty Endowment Fund, which was established in 1993. That fund provides recognition of exemplary work performance, positive impact on students, professional commitment, and other contributions to the college.

This year's Exceptional Faculty members are:

- Patricia A. Atkinson, instructor of economics
- Dr. John Caruso, instructor of English

- Becky Engel, instructor of American Sign Language
- Dr. Nicholas Macias, instructor of computer science and engineering
- Brian McVay, professor of welding

Patricia A. Atkinson, Economics

When Patricia Atkinson was an undergraduate, she was an enthusiastic student—but not a focused one. “I loved all my studies, from history and geography to math and science,” she said.

It was only in her junior year of college, when she took her first economics course—a field that combined aspects of all those disciplines—that Atkinson found her true academic passion.

Today, Atkinson passes that passion on to her students. “She made me enjoy and understand a subject that I disliked and struggled with in the past,” wrote one nominator. “She always would go out of her way to make sure we understood the material by relating it to real-life experiences.”

Another student wrote, “She allowed me to understand and appreciate what college can be. ... Professor Atkinson showed me that college is about learning, engaging, participating, and enhancing your personal capital.”

Atkinson, who has taught at Clark since 2009, is currently a tenure-track instructor at the college. She has also taught at Portland Community College, University of Phoenix, and Portland State University, where she earned her master’s degree in economics. She is currently completing her doctorate degree in education leadership at Washington State University

Vancouver.

Dr. John Caruso, English

Most kids' first jobs are something along the lines of babysitting or mowing lawns—John Caruso's, which he began at age 13, was writing book reviews for the local newspaper. So it's not all that surprising that he grew up to be an English professor.

“I love learning, and I love helping my students learn,” Caruso said. “When you have an active, alert mind, talking about ideas and language is like playing your favorite sport. I feel blessed to spend my days doing something that I enjoy, and doubly blessed that what I enjoy also improves the lives of my students.”

Students clearly count Caruso as a blessing, too. “John makes everyone want to engage in class activities and discussions,” wrote one nominator. “Even the more shy kids are raising their hands. We all felt safe and valued in his class.”

Caruso said that his own experience as a first-generation college student helps him create a welcoming environment for the diverse student body he teaches at Clark. (He also teaches at Marylhurst University.) He earned his bachelor's degree at UCLA; his master's, at California State University Chico; and his doctorate in English at the University of Washington. He has taught English for two decades, and at Clark for the past six years. A frequently published writer of short fiction, Caruso is expecting his first full-length novel, *The Lawn Job*, to be published by Cloud Lodge Books later this year.

Becky Engel, American Sign Language

When students describe Rebecca Engel, they mention her supportiveness, her individual attention, and her flexibility in presenting material in a range of teaching styles.

“I see myself as a chameleon of sorts, always adapting to the different needs and learning styles the students present,” Engel said. “I picked up this skill in my first teaching job in the K-12 system. I had deaf students of all levels, so I was constantly adapting to meet their needs and learning styles.”

Students say they appreciate Engel’s adaptability, as well as the unique perspective she is able to provide as a Deaf person herself. “Becky strives to teach her classes about Deaf culture and how to interact within the Deaf community,” wrote one nominator. “Not only does she teach ASL, but she also teaches us proper etiquette, what to expect when in a Deaf community event, and other important things that help us learn how to interact with the Deaf community.”

Engel earned her bachelor’s degree from Oregon State University and her Master of Deaf Education from Western Oregon University. She taught at the Washington School for the Deaf before becoming an instructor at Clark College. Currently she is a tenure-track instructor at the college, teaching not only standard language classes but also a course in American Deaf Culture and a special Honors Program language class. She serves on the ASL advisory boards for the Vancouver, Battle Ground, Evergreen, and Camas school districts, as well as on Clark College’s Social Equity Task Force and Emergency Building Coordinator Committee.

Dr. Nicholas Macias, Computer Science and Engineering

Dr. Nicholas Macias has had an almost life-long fascination with computers. He began playing around with programming on the computers at his high school, even though he wasn't yet old enough to take the school's computer science classes. "I'd pull people's code out of the garbage, uncrumple it, type it in, and try to figure out what it did," he recalls.

That boundless curiosity and enthusiasm is still on display now that he teaches computer science himself. "He's intensely passionate not just about teaching, but also about learning," wrote a student in nominating him. "He's dedicated so much of his life to the work that he loves, and it always shines through."

Dr. Macias earned his master's degree in computer science from George Washington University and another in mathematics from Duke University. He earned his Ph.D. in electrical engineering from Virginia Polytechnic University. He spent many years as a computer scientist in both government and private enterprise before deciding to focus full-time on teaching. He has taught at Clark since 2011 and has served as a faculty advisor for both the Computer Science and Engineering and the MARS Robotics student clubs.

"Knowing that this award is based in part on student input means so much to me," said Dr. Macias. "I like to believe that I'm helping students, even when I know I'm making them work hard and they'd rather have the weekend free! This award feels like a very big 'Thank You,' and gives me hope that what I'm doing really is making a difference."

Brian McVay, Welding

You could say welding runs in Brian McVay's blood—both his father and stepfather were welders, and his mother worked as a machinist on nuclear submarines. “In the eighth grade, I knew what I wanted to do,” he said.

McVay studied welding at Clark College before being accepted into a boilermaker apprenticeship. Later, he returned to Clark for further studies to prepare for an apprenticeship as an ironworker, a job he held for 17 years. “I always came back to Clark,” he said, noting that he returned to the college again for management classes later in his career. “Education has been something that I really value. I wake up in the morning looking forward to learning something new that day.”

In 2014, he found himself returning to Clark again—this time, to teach. He said he enjoys being able to give back to a place that taught him so much, preparing students for today's industrial jobs.

“I tell my students on the first day of class, ‘I don't *give* you a grade. You *earn* your grade,’” he said. “I run my shop like it would be run in the industry.”

Students appreciate his “tough love” approach. “Mr. McVay has a very ‘let's get it done now’ attitude,” wrote a nominator. “However, he never teaches us to prioritize the work over safety. ... He pushes us ahead in order to help us achieve more.”
