On April 11, Clark College celebrated tree planting and care at the annual Arbor Day celebration. Led by Clark College International Programs director Jane Walster, the ceremony took place on the northeast corner of Fort Vancouver Way and McLoughlin Boulevard.

The theme of this year's event was "The Gift of Friendship."

At the ceremony, Clark trustee and former mayor of Vancouver Royce Pollard announced the gift of 200 new Somei Yoshino flowering cherry trees donated by Tatsuo Ito of SEH America, a Japanese manufacturing company in Vancouver. The new cherry trees—along with the 100 Shirofugen cherry trees donated more than 25 years ago—act as symbols of the college's enduring friendship with Japan.

President Bob Knight accepts the Tree Campus USA award from U.S. Forest Service officer Dave Olson.

According to Tim Carper, a member of the Campus Tree Advisory Committee, 100 of the donated trees were planted prior to the ceremony, including 20 trees at Clark's Columbia Tech Center location, and the college is determining where the remaining 100 trees will be planted.

At the ceremony Clark College was also awarded with the Arbor Day Foundation's Tree Campus USA designation for the eighth consecutive year. Dave Olson of the U.S. Forest Service presented the award to Clark College president Bob Knight.

The Arbor Day celebration concluded with a ceremonial planting of one of the Yoshino cherry trees donated by Ito.

Stating the case for trees

Members of the community help plant a Black Hills Spruce during Clark College's 2016 Arbor Day celebration. *Left to right:* Campus Tree Advisory Committee member Jim Wasden, Director of Facilities Services Tim Petta, retired groundskeeper Skip Jimerson, Vice President of Administrative Services Bob Williamson, and Washington State Forester Aaron Everett.

On April 13, Clark College celebrated nature at its annual Arbor Day event and tree planting.

The event, which was free and open to the public, featured the addition of a Black Hills Spruce to the campus's beautiful 90-acre arboretum. This was just the most recent effort by the

college to include all 50 state trees in the campus arboretum: The Black Hills Spruce is the official state tree of South Dakota. With the addition of this tree, the arboretum contains trees representing 40 states.

Starts of several more state trees were present at the ceremony; these donations are still too young to plant outdoors, but will be tended in the college's greenhouse until they are ready to take their respective places in the arboretum.

Left to right: Campus Tree Advisory Committee member Tim Carper, retired groundskeeper Skip Jimerson, and Facilities Services employee (and Skip's wife) Lori Jimerson.

The event took place at the southeast corner of the Frost Arts Center, near the north end of the Royce E. Pollard Japanese Friendship Garden. Jim Wasden, a retired member of the U.S. Forest Service and current member of the Clark College Campus Tree Advisory Committee, gave the keynote speech. Recently retired groundskeeper Skip Jimerson, who was instrumental in Clark's efforts to include all 50 state trees, returned to campus to participate in the event and ceremonially shovel dirt onto the new tree.

The event featured the presentation by Washington State Forester Aaron Everett of the college's Tree Campus USA designation by the Arbor Day Foundation for the sixth year in a row. Tree Campus USA colleges must meet rigorous standards in five separate areas to earn this designation.

The arboretum can be explored online at trees.clark.edu, which features an interactive, mobile-friendly map to view the locations of and access descriptions for most trees on campus. This includes a six-decade-old Scarlet Oak and the campus's iconic Shirofugen blossoming cherry trees, the latter of which are celebrated each year at the college's annual Sakura Festival.

Clark Adopts the Gold Standard

Clark's efforts to conserve water during a statewide drought have led to the grass looking a little more parched than usual.

This summer, visitors to the main campus may have noticed a change in its normally lush landscape. The grass, which usually blankets the campus in emerald green, has been looking a little, well, *thirsty* of late. Dry. Brown. Dead, possibly?

Far from it, assures Clark College Director of Facilities Services Tim Petta. He explains that the college is simply responding to Washington Governor Jay Inslee's May 15 declaration of a statewide drought.

"Clark College is doing its part to reduce irrigation use to the least amount of water possible during this difficult water resource time," says Petta. "We are trying different shortened watering schedules to use the least amount of water, while still keeping the grass alive."

According to the Washington Department of Ecology, almost 80 percent of the state's rivers and streams are running at below-normal levels—and 38 percent of them at record lows. Meanwhile, mountain snowpacks are down to 16 percent of their

normal levels, and the Washington Department of Agriculture is projecting a \$1.2 billion crop loss this year as a result of the drought.

While the college does not rely on a municipal source for irrigation water, it does pull that water from an underground aquifer that is also used to provide municipal water locally. So the college decided to do what it could to slow its drain on a community resource, says Petta.

The irrigation changes should not affect the college's landmark arboretum, which has earned the college Tree Campus USA status from the Arbor Day Foundation for five years in a row. Trees' deep roots can withstand drought better than smaller, more delicate plants.

Nor will the changes prevent the college's beloved Andersen Fountain from flowing again in a few weeks once scheduled repairs have been made to it. The fountain operates on a "closed loop" system that recycles the water, meaning it can continue to surprise guests and delight children without affecting the state's limited water reserves.

Description			

To add a keyword to your event, simply add it in the "Search Keyword" field in the online form on ClarkNet. (Click image to enlarge.)

Are you organizing an event that you think belongs on the Green Clark page? It's easy to add it to the page's calendar feed. Just add the keyword "greenclark" (all one word, all lower-case) to the "Search Keyword" field of your listing on the online Events Calendar. (See highlighting in the image to the left.)

As a refresher, any Clark employee can add an event to the college's online Events Calendar through ClarkNet. Once logged into ClarkNet, simply select "Tools" from the main menu, then scroll down to "College Calendar" and select "Add Events." Once you've filled out the simple form, your event will be added to the college's main online calendar, where it will be accessible to anyone visiting the website and will appear on the clark.edu home page when it becomes one of the two closest upcoming events on the calendar.

If you've already created an event that you think belongs on the Green Clark page, it's easy to add the "greenclark" search term to your event—all you have to do is log into ClarkNet, select "Tools," and then under "College Calendar" select "Update/Delete Event."
